How did the Fund perform in the last year?

Class Y Shares underperformed its benchmark, the Wilshire US Real Estate Securities Index, for the 12-month period ending September 30, 2025.

Real estate investment trusts (REITs), as measured by the Wilshire US Real Estate Securities Index, largely trailed the broader U.S. equity market over the reporting period, remaining nearly flat year-over-year in an environment defined by large risk appetite and volatility fueled by artificial intelligence (AI) and the Trump administration's tariffs on imports. The Fund's sole sub-adviser—CenterSquare Investment Management—narrowly lagged the Fund's benchmark over the reporting period, experiencing poor stock selection in industrial and retail-related REITs. This was partially offset by strong selection in diversified and hotel REITs. Sector positioning had a modestly positive impact on performance, benefiting from an overweight allocation to healthcare REITs, which was partially offset by an underweight to the real estate services sector. At the security level, holdings in American Healthcare REIT, Public Storage, and Ventas Inc. were the top performers for the period while Lineage Inc., United Dominion Realty Trust, and Welltower Inc. were the most notable underperformers.
