How did the Fund perform in the last year?

Class I Shares achieved its objective of tracking, before fees and expenses, the performance of its benchmark, the S&P 500 Index, for the 12-month period ending September 30, 2025. Fund performance resulted primarily from investment in stocks held at weights similar to their respective weights in the index.

The Fund uses a sub-adviser, SSGA Funds Management, Inc., to manage the portfolio under the general supervision of SEI Investments Management Corporation.

The broad U.S. equity market, as measured by the S&P 500 Index, garnered a positive return during the reporting period and the Fund's passive investment strategy captured that outcome.

Derivatives did not have a significant impact on Fund performance for the reporting period.
