Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Funds' shareholder reports like this one will no longer be sent by mail, unless you specifically request paper copies of the reports from the Funds or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Funds electronically by contacting your financial intermediary.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can follow the instructions included with this disclosure, if applicable, or you can contact your financial intermediary to inform it that you wish to continue receiving paper copies of your shareholder reports. If you invest directly with the Funds, you can inform the Funds that you wish to continue receiving paper copies of your shareholder reports by calling 1-800-DIAL-SEI. Your election to receive reports in paper will apply to all funds held with the SEI Funds or your financial intermediary.

TABLE OF CONTENTS

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarter of each fiscal year on Form N-PORT. The Trust's Forms N-PORT are available on the Commission's website at <http://www.sec.gov>.

A description of the policies and procedures that the Trust uses to determine how to vote proxies relating to portfolio securities, as well as information relating to how a Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, is available (i) without charge, upon request, by calling 1-800-DIAL-SEI; and (ii) on the Commission's website at <http://www.sec.gov>.

LETTER TO SHAREHOLDERS

August 31, 2020 (Unaudited)

To our shareholders:

The broad municipal bond (“muni”) market was higher, according to the Bloomberg Barclays US Municipal Bond Index, during the Funds’ reporting period—September 1, 2019, through August 31, 2020—gaining at the start of the period before the outbreak and rapid expansion of COVID-19 in the second half of the fiscal year interjected historical market volatility; the index rebounded to reach new highs before the period ended, despite many local governments facing big revenue declines. Financial-market conditions during the second half of the period reflected the economic impact of widespread lockdowns in the U.S., with unemployment climbing as high as 14.4%, a level not seen since the Great Depression. Two off-cycle moves by the Federal Reserve (“Fed”) in March 2020 brought the federal-funds rate to near zero and were designed to bolster the economy in response to the economic threat posed by the coronavirus outbreak; the emergency actions were the first since the global financial crisis. Additionally, the Fed committed to purchasing unlimited amounts of Treasuries and established or renewed multiple facilities designed to support financial markets and, by extension, the economy.

Yields for AAA rated* municipals declined, with 10-year AAA municipal bonds within the Bloomberg Barclays US Municipal Bond Index establishing a record low yield of 0.58% in August. Relative to U.S. Treasuries, municipal bonds underperformed, especially on the short end of the curve where the flight-to-safety demand for Treasury bonds as the pandemic accelerated was strongest. Muni-market sector performance trends reversed from the previous reporting period, with revenue bonds (which tend to be riskier, as they are not supported by the issuing government’s ability to levy taxes) underperforming general obligation bonds. Pre-refunded bonds lagged as investors sought yield, and the shorter-duration profile of the sector limited returns.

From a credit-quality perspective, higher-quality investment-grade bonds generally outperformed lower-quality investment-grade bonds within the Bloomberg Barclays US Municipal Bond Index. High-yield muni bonds lagged during the period, as investors tended to stay away from riskier sectors most affected by the pandemic, such as travel and hospitality. On the supply side, muni issuance increased from the prior period on an average monthly basis, with most of the increase related to refundings. In the declining yield environment, demand for municipals remained robust, especially in high-tax states where the deduction cap made the tax exemption of municipals more attractive.

Within the Bloomberg Barclays U.S. Municipal Bond Index, AAA municipal bond yields fell less for longer maturities than shorter maturities, and yields for longer-term munis remained firmly above short-term yields. The Treasury curve began the reporting period inverted but steepened as yields for longer-term Treasuries rose back above shorter-term rates.

On behalf of SEI, I want to thank you for your confidence in the SEI Tax Exempt Trust. We are dedicated to helping our investors reach their long-term objectives, and we look forward to serving your investment needs in the future.

Sincerely,

William Lawrence, CFA
Head and Chief Investment Officer of Traditional Asset Management

This commentary and the subsequent manager discussions of fund performance may contain the opinion of the manager regarding current market conditions, but should not be relied upon as research or investment advice and is for educational purposes only.

* Credit ratings are measured on a scale that generally ranges from AAA (highest) to D (lowest).

August 31, 2020 (Unaudited)

Intermediate-Term Municipal Fund

I. Objective

The STET Intermediate-Term Municipal Fund (the "Fund") seeks to provide the highest level of income exempt from federal income tax consistent with the preservation of capital.

II. Investment Approach

The Fund uses a multi-manager approach, relying on a number of sub-advisors with different investment approaches to manage portions of the Fund under the general supervision of SEI Investments Management Corp. ("SIMC"). The Fund utilized the following sub-advisors as of August 31, 2020: Delaware Investments Fund Advisers, a series of Macquarie Investment Management Business Trust ("Macquarie"), Mellon Investments Corporation ("Mellon") and Wellington Management Company LLP ("Wellington").

III. Returns

For the full year ended August 31, 2020, the Intermediate-Term Municipal Fund, Class F, returned 2.46%. The Fund's benchmark—the Bloomberg Barclays 3-15 Year Intermediate Municipal Blend Index, which tracks the performance of municipal bonds with remaining maturities between 3 and 15 years—returned 3.39%.

IV. Performance Discussion

The outbreak and rapid expansion of COVID-19 in the second half of the fiscal year interjected historical market volatility into the municipal bond market during the reporting period. Prior to late February, muni bonds experienced nearly a year of inflows, narrowing credit spreads, and positive performance. As noted in the shareholder letter, AAA municipal yields established record low yields in early March before concerns about the lasting economic impact of the virus increased dramatically and both state and local governments induced widespread lockdowns. Municipal yields rose approximately 200 basis points across the curve as market liquidity evaporated; investor uncertainty led to record fund redemptions, which further exacerbated the liquidity challenges. The Federal Reserve ("Fed") moved swiftly to support financial markets by reducing the federal-funds rate to zero, began unlimited purchases of U.S. Treasury bonds, and launched several credit facilities to purchase corporate and municipal bonds. Over the remainder of the fiscal year, AAA municipal yields declined and returned to record low yields by the end of August. Short-term yields declined in greater magnitude than longer-term yields, in tandem

with the Fed lowering the federal-funds rate. Relative to U.S. Treasuries, municipal bonds (as measured by the Bloomberg Barclays US Municipal Bond Index) underperformed, especially on the short end of the curve where the flight-to-safety demand for Treasury bonds was strongest.

While the municipal market recovered a large percentage of its losses, the recovery was uneven; higher-quality assets and essential service sectors rebounded quicker as investors remained uncertain about the recovery and loss of income and sales taxes due to shelter-in-place orders and social-distancing policies. BBB rated and below-investment-grade municipal bonds lagged AAA rated securities for the year. From a sector perspective, general obligation ("GO") bonds produced the highest sector return, while revenue and prefunded bonds had the lowest sector return. Within the revenue sector, transportation bonds underperformed as utilization declined; travel restrictions resulted in a precipitous decline in airplane use, and a large segment of the population worked from home.

The initial Coronavirus Aid, Relief, and Economic Security Act—a \$2.2 trillion economic stimulus bill in response to the economic impact of COVID-19—was passed in March and provided support to municipalities, which included airports and transit systems. Combined with large cash balances, the stimulus bill enabled many issuers to better navigate the crisis.

Consistent with the relative sector performance outlined in the shareholder letter, an overweight to revenue bonds over GO bonds subtracted during the fiscal year, especially within the transportation and hospital sectors. An overweight to BBB rated munis, which underperformed higher-quality municipal bonds, also detracted from relative returns. The Fund's slightly longer duration posture was additive, while its flatter yield-curve positioning subtracted as the municipal yield curve steepened.

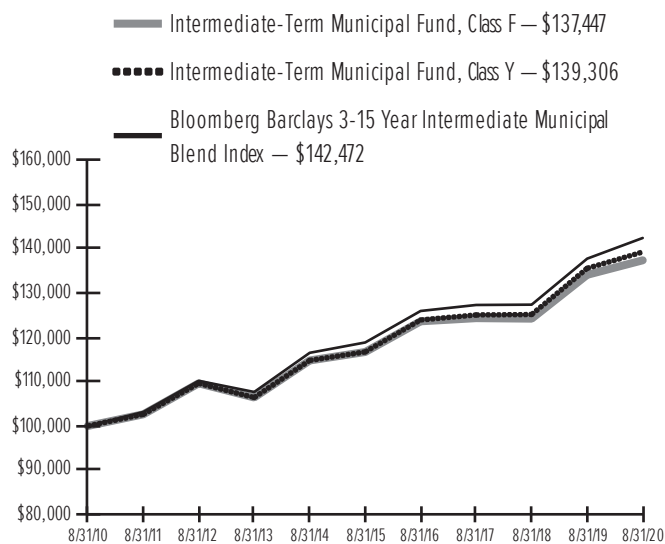

All three managers underperformed during the fiscal year. Macquarie detracted most and underperformed due to its overweight to revenue bonds, as well as an allocation to high-yield municipals and BBB rated securities. Mellon was also challenged by its overweight to BBB rated securities and revenue bonds. Wellington benefited from a more defensive credit posture heading into March, although the manager still underperformed due to its overweight to revenue bonds (particularly within transportation) and an allocation to high-yield municipals.

Investing is subject to risk, including the possible loss of principal. Past performance is no indication of future results.

AVERAGE ANNUAL TOTAL RETURN^{1,2}

	One Year Return	Average Annual 3-Year Return	Average Annual 5-Year Return	Average Annual 10-Year Return	Average Annualized Inception to Date
Intermediate-Term Municipal Fund, Class F	2.46%	3.39%	3.32%	3.23%	4.64%
Intermediate-Term Municipal Fund, Class Y	2.72%	3.65%	3.60%	3.37%	4.69%
Bloomberg Barclays 3-15 Year Intermediate Municipal Blend Index ³	3.39%	3.81%	3.68%	3.60%	5.25%

Comparison of Change in the Value of a \$100,000 Investment in the Intermediate-Term Municipal Fund, Class F and Class Y, versus the Bloomberg Barclays 3-15 Year Intermediate Municipal Blend Index

- For the year ended August 31, 2020. Past performance is no indication of future performance. Class F shares (formerly Class A shares) were offered beginning September 5, 1989. The Fund's Class Y Shares commenced operations on May 1, 2015. For periods prior to May 1, 2015, the performance of the Fund's Class F Shares has been used. Returns for Class Y Shares would have been substantially similar to those of Class F Shares and would have differed only to the extent that Class Y Shares have lower total annual fund operating expenses than Class F Shares.
- Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.
- The Bloomberg Barclays 3-15 Year Intermediate Municipal Blend Index is an unmanaged index that tracks the performance of municipal bonds issued after December 31, 1990 with remaining maturities between 2 and 17 years and at least \$5 million in principal amount outstanding.

August 31, 2020 (Unaudited)

Short Duration Municipal Fund

I. Objective

The STET Short Duration Municipal Fund (the "Fund") seeks to provide a high level of income exempt from federal income tax consistent with the preservation of capital.

II. Investment Approach

The Fund uses a multi-manager approach, relying on a number of sub-advisors with different investment approaches to manage portions of the Fund under the general supervision of SEI Investments Management Corp. ("SIMC"). The Fund utilized the following sub-advisors as of August 31, 2020: Neuberger Berman Investment Advisers LLC ("Neuberger"), Wells Capital Management, Inc. ("Wells") and Western Asset Management Company ("Western").

III. Returns

For the full year ended August 31, 2020, the Short Duration Municipal Fund, Class F, returned 1.69%. The Fund's benchmark—the Bloomberg Barclays 1 Year Municipal Bond Index, which tracks the performance of municipal bonds with remaining maturities of approximately one year—returned 1.95%.

IV. Performance Discussion

The outbreak and rapid expansion of COVID-19 in the second half of the fiscal year interjected historical market volatility into the municipal bond market during the reporting period. Prior to late February, muni bonds experienced nearly a year of inflows, narrowing credit spreads, and positive performance. As noted in the shareholder letter, AAA municipal yields established record low yields in early March before concerns about the lasting economic impact of the virus increased dramatically and both state and local governments induced widespread lockdowns. Municipal yields rose approximately 200 basis points across the curve as market liquidity evaporated; investor uncertainty led to record fund redemptions, which further exacerbated the liquidity challenges. The Federal Reserve ("Fed") moved swiftly to support financial markets by reducing the federal-funds rate to zero, began unlimited purchases of U.S. Treasury bonds, and launched several credit facilities to purchase corporate and municipal bonds. Over the remainder of the fiscal year, AAA municipal yields declined and returned to record low yields by the end of August. Short-term yields declined in greater magnitude than longer-term yields, in tandem with the Fed lowering the federal-funds rate. Relative to U.S. Treasuries, municipal bonds (as measured by

the Bloomberg Barclays US Municipal Bond Index) underperformed, especially on the short end of the curve where the flight-to-safety demand for Treasury bonds was strongest.

While the municipal market recovered a large percentage of its losses, the recovery was uneven; higher-quality assets and essential service sectors rebounded quicker as investors remained uncertain about the recovery and loss of income and sales taxes due to shelter-in-place orders and social-distancing policies. BBB rated and below-investment-grade municipal bonds lagged AAA rated securities for the year. From a sector perspective, general obligation ("GO") bonds produced the highest sector return, while revenue and prefunded bonds had the lowest sector return. Within the revenue sector, transportation bonds underperformed as utilization declined; travel restrictions resulted in a precipitous decline in airplane use, and a large segment of the population worked from home.

The initial Coronavirus Aid, Relief, and Economic Security Act—a \$2.2 trillion economic stimulus bill in response to the economic impact of COVID-19—was passed in March and provided support to municipalities, which included airports and transit systems. Combined with large cash balances, the stimulus bill enabled many issuers to better navigate the crisis.

Consistent with the relative sector performance outlined in the shareholder letter, an overweight to revenue bonds subtracted during the fiscal year. An overweight to BBB rated munis, which underperformed higher-quality municipal bonds, also detracted from relative returns as uncertainty about the virus and the economy reopening drove elevated risk aversion. The Fund's relative short-duration posture further challenged performance as municipal yields declined during the year. The Fund's overweight to 3- and 5-year maturities was additive, as those maturities outperformed the 1-year bonds in the benchmark.

Western lagged and was challenged by its overweight to the underperforming transportation sector and a slightly shorter duration posture. Wells had a shorter duration posture that detracted as yields declined, along with an overweight to revenue bonds. Neuberger outperformed and benefited from its overweight to the multi-family housing sector and underweight to the transportation sector. Neuberger also moved duration slightly long of the benchmark in March as yields rose, which enhanced returns when yields again declined over the remainder of the year.

Investing is subject to risk, including the possible loss of principal. Past performance is no indication of future results.

AVERAGE ANNUAL TOTAL RETURN^{1,2}

	One Year Return	Average Annual Return 3-Year	Average Annual Return 5-Year	Average Annual Return 10-Year	Average Annualized Return Inception to Date
Short Duration Municipal Fund, Class F	1.69%	1.45%	1.06%	0.86%	1.53%
Short Duration Municipal Fund, Class Y	1.85%	1.68%	1.30%	0.97%	1.60%
Bloomberg Barclays 1-Year Municipal Bond Index ³	1.95%	1.74%	1.41%	1.12%	1.83%

Comparison of Change in the Value of a \$100,000 Investment in the Short Duration Municipal Fund, Class F and Class Y, versus the Bloomberg Barclays 1-Year Municipal Bond Index

- For the year ended August 31, 2020. Past performance is no indication of future performance. Class F shares (formerly Class A shares) were offered beginning November 13, 2003. The Fund's Class Y Shares commenced operations on May 1, 2015. For periods prior to May 1, 2015, the performance of the Fund's Class F Shares has been used. Returns for Class Y Shares would have been substantially similar to those of Class F Shares and would have differed only to the extent that Class Y Shares have lower total annual fund operating expenses than Class F Shares.
- Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.
- The Bloomberg Barclays 1-Year Municipal Bond Index is a rules-based, market-value-weighted index engineered for the short-term tax exempt bond market. The Index has four main sectors: general obligation, revenue, insured and pre-refunded bonds.

August 31, 2020 (Unaudited)

California Municipal Bond Fund

I. Objective

The STET California Municipal Bond Fund (the "Fund") seeks to provide the highest level of current income exempt from federal and California state income taxes consistent with the preservation of capital.

II. Investment Approach

The Fund uses a sub-advisor to manage the Fund's portfolio under the general supervision of SEI Investments Management Corporation. The Fund utilized the following sub-advisor as of August 31, 2020: Mellon Investments Corporation ("Mellon").

III. Returns

For the full year ended August 31, 2020, the California Municipal Bond Fund, Class F, returned 2.39%. The Fund's benchmark—the Bloomberg Barclays MF California Intermediate Municipal Index, which tracks the performance of California investment-grade municipal bonds—returned 3.71%.

IV. Performance Discussion

The outbreak and rapid expansion of COVID-19 in the second half of the fiscal year interjected historical market volatility into the municipal bond market during the reporting period. Prior to late February, muni bonds experienced nearly a year of inflows, narrowing credit spreads, and positive performance. As noted in the shareholder letter, AAA municipal yields established record low yields in early March before concerns about the lasting economic impact of the virus increased dramatically and both state and local governments induced widespread lockdowns. Municipal yields rose approximately 200 basis points across the curve as market liquidity evaporated; investor uncertainty led to record fund redemptions, which further exacerbated the liquidity challenges. The Federal Reserve (Fed) moved swiftly to support financial markets by reducing the federal-funds rate to zero, began unlimited purchases of U.S. Treasury bonds, and launched several credit facilities to purchase corporate and municipal bonds. Over the remainder of the fiscal year, AAA municipal yields declined and returned to record low yields by the end of August. Short-term yields declined in greater magnitude than longer-term yields, in tandem with the Fed lowering the federal-funds rate. Relative to U.S. Treasuries, municipal bonds (as measured by the Bloomberg Barclays US Municipal Bond Index) underperformed, especially on the short end of the curve where the flight-to-safety demand for Treasury bonds was strongest.

While the municipal market recovered a large percentage of its losses, the recovery was uneven; higher-quality assets and essential service sectors rebounded quicker as investors remained uncertain about the recovery and loss of income and sales taxes due to shelter-in-place orders and social-distancing policies. BBB rated and below-investment-grade municipal bonds lagged AAA rated securities for the year. From a sector perspective, general obligation ("GO") bonds produced the highest sector return, while revenue and prefunded bonds had the lowest sector return. Within the revenue sector, transportation bonds underperformed as utilization declined; travel restrictions resulted in a precipitous decline in airplane use, and a large segment of the population worked from home.

The initial Coronavirus Aid, Relief, and Economic Security Act—a \$2.2 trillion economic stimulus bill in response to the economic impact of COVID-19—was passed in March and provided support to municipalities, which included airports and transit systems. Combined with large cash balances, the stimulus bill enabled many issuers to better navigate the crisis. While the COVID-19 pandemic led to a dramatic decrease in sales-tax revenues late during the fiscal year, California benefited from maintaining a rainy-day fund, which enabled the state to initially absorb the revenue decline. CA bonds managed to outperform the general market as most technology workers were able to work from home; the cap on state and local income-tax deductions also provided support to its municipal bonds, which helped to keep state GO spreads from widening.

Consistent with the relative sector performance outlined in the shareholder letter, an overweight to revenue bonds, particularly the healthcare sector, detracted from Fund returns during the fiscal year. The Fund's underweight to state GO bonds also struggled. Within the revenue sector, an overweight to transportation bonds held back performance. A slightly longer duration posture benefited as yields declined during the fiscal period. An overweight to appropriated debt, which outperformed, was also additive.

Investing is subject to risk, including the possible loss of principal. Past performance is no indication of future results.

AVERAGE ANNUAL TOTAL RETURN^{1,2}

	One Year Return	Average Annual 3-Year Return	Average Annual 5-Year Return	Average Annual 10-Year Return	Annualized Inception to Date
California Municipal Bond Fund, Class F	2.39%	2.71%	2.73%	2.82%	3.87%
California Municipal Bond Fund, Class Y	2.45%	2.83%	2.86%	2.88%	3.89%
Bloomberg Barclays MF California Intermediate Municipal Index ³	3.71%	3.64%	3.45%	3.69%	4.60%

Comparison of Change in the Value of a \$100,000 Investment in the California Municipal Bond Fund, Class F and Class Y, versus the Bloomberg Barclays MF California Intermediate Municipal Index

- For the year ended August 31, 2020. Past performance is no indication of future performance. Class F shares (formerly Class A shares) were offered beginning August 19, 1998. The Fund's Class Y Shares commenced operations on October 30, 2015. For periods prior to October 30, 2015, the performance of the Fund's Class F Shares has been used. Returns for Class Y Shares would have been substantially similar to those of Class F Shares and would have differed only to the extent that Class Y Shares have lower total annual fund operating expenses than Class F Shares.
- Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.
- The Bloomberg Barclays MF California Intermediate Municipal Index is a subset of the Bloomberg Barclays Municipal Bond Index, an unmanaged, broad-based statistical composite of municipal bonds, and is comprised primarily of bond obligations of the state and local governments of California and their agencies, with maturities between 5 and 10 years.

August 31, 2020 (Unaudited)

Massachusetts Municipal Bond Fund

I. Objective

The STET Massachusetts Municipal Bond Fund (the "Fund") seeks to provide the highest level of current income exempt from federal and Massachusetts state income taxes consistent with the preservation of capital.

II. Investment Approach

The Fund uses a sub-advisor to manage the Fund's portfolio under the general supervision of SEI Investments Management Corporation ("SIMC"). The Fund utilized the following sub-advisor as of August 31, 2020: Mellon Investments Corporation ("Mellon").

III. Returns

For the full year ended August 31, 2020, the Massachusetts Municipal Bond Fund, Class F, returned 2.79%. The Fund's benchmark—the Bloomberg Barclays MF Massachusetts Intermediate Municipal Index, which tracks the performance of Massachusetts investment-grade municipal bonds—returned 4.18%.

IV. Performance Discussion

The outbreak and rapid expansion of COVID-19 in the second half of the fiscal year interjected historical market volatility into the municipal bond market during the reporting period. Prior to late February, muni bonds experienced nearly a year of inflows, narrowing credit spreads, and positive performance. As noted in the shareholder letter, AAA municipal yields established record low yields in early March before concerns about the lasting economic impact of the virus increased dramatically and both state and local governments induced widespread lockdowns. Municipal yields rose approximately 200 basis points across the curve as market liquidity evaporated; investor uncertainty led to record fund redemptions, which further exacerbated the liquidity challenges. The Federal Reserve ("Fed") moved swiftly to support financial markets by reducing the federal-funds rate to zero, began unlimited purchases of U.S. Treasury bonds, and launched several credit facilities to purchase corporate and municipal bonds. Over the remainder of the fiscal year, AAA municipal yields declined and returned to record low yields by the end of August. Short-term yields declined in greater magnitude than longer-term yields, in tandem with the Fed lowering the federal-funds rate. Relative to U.S. Treasuries, municipal bonds (as measured by the Bloomberg Barclays US Municipal Bond Index) underperformed, especially on the short end of the curve where the flight-to-safety demand for Treasury bonds was strongest.

While the municipal market recovered a large percentage of its losses, the recovery was uneven; higher-quality assets and essential service sectors rebounded quicker as investors remained uncertain about the recovery and loss of income and sales taxes due to shelter-in-place orders and social-distancing policies. BBB rated and below-investment-grade municipal bonds lagged AAA rated securities for the year. From a sector perspective, general obligation ("GO") bonds produced the highest sector return, while revenue and prefunded bonds had the lowest sector return. Within the revenue sector, transportation bonds underperformed as utilization declined; travel restrictions resulted in a precipitous decline in airplane use, and a large segment of the population worked from home.

The initial Coronavirus Aid, Relief, and Economic Security Act—a \$2.2 trillion economic stimulus bill in response to the economic impact of COVID-19—was passed in March and provided support to municipalities within the state, which included airports and transit systems. Combined with large cash balances, the stimulus bill enabled many Massachusetts issuers to better navigate the crisis. While the COVID-19 pandemic led to a dramatic decrease in sales-tax revenues late during the fiscal year, Massachusetts benefited from maintaining a rainy-day fund, which enabled the state to initially absorb the revenue decline.

Consistent with the relative performance outlined in the shareholder letter, an overweight to BBB rated over higher-rated securities challenged Fund performance during the fiscal year. The Fund's yield-curve flattening positioning detracted as the yield curve steepened. An overweight to revenue bonds also struggled, as did selection within the transportation sector. The Fund's underweight to Commonwealth of Massachusetts bonds also struggled, as investors moved to higher-quality and more diverse credits. A slightly longer duration posture benefited as yields declined during the fiscal period.

Investing is subject to risk, including the possible loss of principal. Past performance is no indication of future results.

AVERAGE ANNUAL TOTAL RETURN^{1,2}

	One Year Return	Average Annual 3-Year Return	Average Annual 5-Year Return	Average Annual 10-Year Return	Annualized Inception to Date
Massachusetts Municipal Bond Fund, Class F	2.79%	2.86%	2.83%	2.72%	3.87%
Massachusetts Municipal Bond Fund, Class Y	2.86%	3.01%	2.96%	2.79%	3.90%
Bloomberg Barclays MF Massachusetts Intermediate Municipal Index ³	4.18%	3.71%	3.61%	3.59%	4.65%

Comparison of Change in the Value of a \$100,000 Investment in the Massachusetts Municipal Bond Fund, Class F and Class Y, versus the Bloomberg Barclays MF Massachusetts Intermediate Municipal Index

- 1 For the year ended August 31, 2020. Past performance is no indication of future performance. Class F shares (formerly Class A shares) were offered beginning August 19, 1998. The Fund's Class Y Shares commenced operations on October 30, 2015. For periods prior to October 30, 2015, the performance of the Fund's Class F Shares has been used. Returns for Class Y Shares would have been substantially similar to those of Class F Shares and would have differed only to the extent that Class Y Shares have lower total annual fund operating expenses than Class F Shares.
- 2 Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.
- 3 The Bloomberg Barclays MF Massachusetts Intermediate Municipal Index is a subset of the Bloomberg Barclays Municipal Bond Index, an unmanaged, broad-based statistical composite of municipal bonds, and is comprised primarily of bond obligations of the state and local governments of Massachusetts and their agencies, with maturities between 5 and 10 years.

August 31, 2020 (Unaudited)

New Jersey Municipal Bond Fund

I. "Objective

The STET New Jersey Municipal Bond Fund (the "Fund") seeks to provide the highest level of current income exempt from federal and New Jersey state income taxes consistent with the preservation of capital.

II. Investment Approach

The Fund uses a sub-advisor to manage the Fund's portfolio under the general supervision of SEI Investments Management Corporation. The Fund utilized the following sub-advisor as of August 31, 2020: Mellon Investments Corporation ("Mellon").

III. Returns

For the full year ended August 31, 2020, the New Jersey Municipal Bond Fund, Class F, returned 2.22%. The Fund's benchmark—the Bloomberg Barclays 3-10 Year Intermediate Municipal Blend Index, which tracks the performance of municipal bonds with remaining maturities between 3 and 10 years—returned 3.39%.

IV. Performance Discussion

The outbreak and rapid expansion of COVID-19 in the second half of the fiscal year interjected historical market volatility into the municipal bond market during the reporting period. Prior to late February, muni bonds experienced nearly a year of inflows, narrowing credit spreads, and positive performance. As noted in the shareholder letter, AAA municipal yields established record low yields in early March before concerns about the lasting economic impact of the virus increased dramatically and both state and local governments induced widespread lockdowns. Municipal yields rose approximately 200 basis points across the curve as market liquidity evaporated; investor uncertainty led to record fund redemptions, which further exacerbated the liquidity challenges. The Federal Reserve (Fed) moved swiftly to support financial markets by reducing the federal-funds rate to zero, began unlimited purchases of U.S. Treasury bonds, and launched several credit facilities to purchase corporate and municipal bonds. Over the remainder of the fiscal year, AAA municipal yields declined and returned to record low yields by the end of August. Short-term yields declined in greater magnitude than longer-term yields, in tandem with the Fed lowering the federal-funds rate. Relative to U.S. Treasuries, municipal bonds (as measured by the Bloomberg Barclays US Municipal Bond Index) underperformed, especially on the short end of the curve where the flight-to-safety demand for Treasury bonds was strongest.

While the municipal market recovered a large percentage of its losses, the recovery was uneven; higher-quality assets and essential service sectors rebounded quicker as investors remained uncertain about the recovery and loss of income and sales taxes due to shelter-in-place orders and social-distancing policies. BBB rated and below-investment-grade municipal bonds lagged AAA rated securities for the year. From a sector perspective, general obligation ("GO") bonds produced the highest sector return, while revenue and prefunded bonds had the lowest sector return. Within the revenue sector, transportation bonds underperformed as utilization declined; travel restrictions resulted in a precipitous decline in airplane use, and a large segment of the population worked from home.

Macroeconomic trends were the main drivers of performance for bonds in the state. The initial Coronavirus Aid, Relief, and Economic Security Act—a \$2.2 trillion economic stimulus bill in response to the economic impact of COVID-19—was passed in March and provided support to municipalities within the state, which included airports and transit systems. Combined with large cash balances, the stimulus bill enabled many New Jersey issuers to better navigate the crisis.

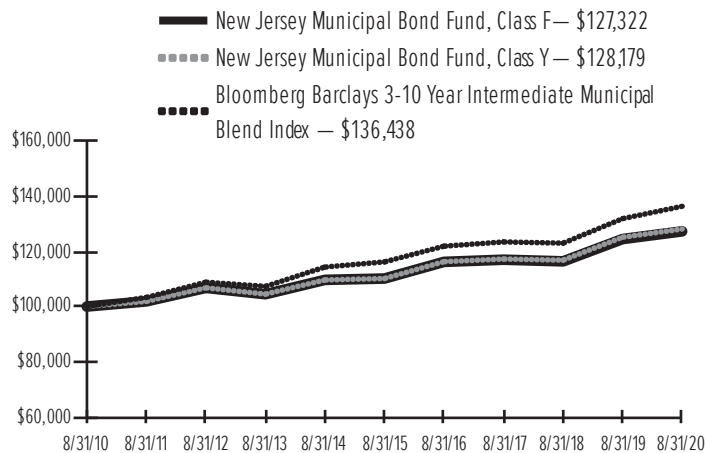

Consistent with the relative performance outlined in the shareholder letter, an overweight to BBB rated over higher-rated securities challenged Fund performance during the fiscal year. The Fund's yield-curve flattening positioning detracted as the yield curve steepened. An overweight to revenue bonds also struggled, as did selection within the transportation sector. The Fund's underweight to State of New Jersey GO bonds detracted despite the state's mounting pension and healthcare liabilities. Overall, NJ bonds underperformed the general market, although stable incomes for NJ residents in the highest tax brackets, along with limits on federal deductions, supported demand and helped mitigate underperformance. A slightly longer duration posture benefited as yields declined during the fiscal period.

Investing is subject to risk, including the possible loss of principal. Past performance is no indication of future results.

AVERAGE ANNUAL TOTAL RETURN^{1,2}

	One Year Return	Average Annual 3-Year Return	Average Annual 5-Year Return	Average Annual 10-Year Return	Average Annualized Inception to Date
New Jersey Municipal Bond Fund, Class F	2.22%	2.85%	2.93%	2.44%	3.51%
New Jersey Municipal Bond Fund, Class Y	2.38%	3.00%	3.07%	2.51%	3.55%
Bloomberg Barclays 3-10 Year Intermediate Municipal Blend Index ³	3.39%	3.38%	3.25%	3.15%	4.22%

Comparison of Change in the Value of a \$100,000 Investment in the New Jersey Municipal Bond Fund, Class F and Class Y, versus the Bloomberg Barclays 3-10 Year Intermediate Municipal Blend Index

- For the year ended August 31, 2020. Past performance is no indication of future performance. Class F shares (formerly Class A shares) were offered beginning August 18, 1998. The Fund's Class Y Shares commenced operations on October 30, 2015. For periods prior to October 30, 2015, the performance of the Fund's Class F Shares has been used. Returns for Class Y Shares would have been substantially similar to those of Class F Shares and would have differed only to the extent that Class Y Shares have lower total annual fund operating expenses than Class F Shares.
- Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.
- The Bloomberg Barclays 3-10 Year Intermediate Municipal Blend Index is a rules-based, market value-weighted index engineered for the intermediate-term tax exempt investor. The Index is derived from a combination of the Bloomberg Barclays 3, 5, 7 and 10 year municipal Indices. These Indices have four main sectors: general obligation, revenue, insured and pre-refunded bonds.

August 31, 2020 (Unaudited)

New York Municipal Bond Fund

I. Objective

The STET New York Municipal Bond Fund (the "Fund") seeks to provide the highest level of current income exempt from federal and New York state and city income taxes consistent with the preservation of capital.

II. Investment Approach

The Fund uses a sub-advisor to manage the Fund's portfolio under the general supervision of SEI Investments Management Corporation. The Fund utilized the following sub-advisor as of August 31, 2020: Mellon Investments Corporation ("Mellon").

III. Returns

For the full year ended August 31, 2020, the New York Municipal Bond Fund, Class F, returned 1.29%. The Fund's benchmark—the Bloomberg Barclays MF New York Intermediate Municipal Index, which tracks the performance of New York investment-grade municipal bonds—returned 2.02%.

IV. Performance Discussion

The outbreak and rapid expansion of COVID-19 in the second half of the fiscal year interjected historical market volatility into the municipal bond market during the reporting period. Prior to late February, muni bonds experienced nearly a year of inflows, narrowing credit spreads, and positive performance. As noted in the shareholder letter, AAA municipal yields established record low yields in early March before concerns about the lasting economic impact of the virus increased dramatically and both state and local governments induced widespread lockdowns. Municipal yields rose approximately 200 basis points across the curve as market liquidity evaporated; investor uncertainty led to record fund redemptions, which further exacerbated the liquidity challenges. The Federal Reserve (Fed) moved swiftly to support financial markets by reducing the federal-funds rate to zero, began unlimited purchases of U.S. Treasury bonds, and launched several credit facilities to purchase corporate and municipal bonds. Over the remainder of the fiscal year, AAA municipal yields declined and returned to record low yields by the end of August. Short-term yields declined in greater magnitude than longer-term yields, in tandem with the Fed lowering the federal-funds rate. Relative to U.S. Treasuries, municipal bonds (as measured by the Bloomberg Barclays US Municipal Bond Index) underperformed, especially on the short end of the curve where the flight-to-safety demand for Treasury bonds was strongest.

While the municipal market recovered a large percentage of its losses, the recovery was uneven; higher-quality assets and essential service sectors rebounded quicker as investors remained uncertain about the recovery and loss of income and sales taxes due to shelter-in-place orders and social-distancing policies. BBB rated and below-investment-grade municipal bonds lagged AAA rated securities for the year. From a sector perspective, general obligation ("GO") bonds produced the highest sector return, while revenue and prefunded bonds had the lowest sector return. Within the revenue sector, transportation bonds underperformed as utilization declined; travel restrictions resulted in a precipitous decline in airplane use, and a large segment of the population worked from home.

The initial Coronavirus Aid, Relief, and Economic Security Act—a \$2.2 trillion economic stimulus bill in response to the economic impact of COVID-19—was passed in March and provided support to municipalities within the state, which included airports and transit systems. Combined with large cash balances, the stimulus bill enabled many New York issuers to better navigate the crisis. New York City's transportation authority, the MTA, borrowed from the Federal Reserve's Municipal Liquidity Facility during the quarter, providing the agency with much-needed funds.

Consistent with the relative performance outlined in the shareholder letter, an overweight to BBB rated over higher-rated securities challenged Fund performance during the fiscal year. Despite the economic challenges posed by the pandemic, the Fund's underweight to New York City GO bonds detracted, as the cap on state and local tax deductions supported demand for tax-exempt securities and enabled credit-quality spreads to remain attractive. Selection within revenue bonds also struggled, as did selection within the transportation and healthcare sectors. A slightly longer duration posture benefited as yields declined during the fiscal period; the Fund's overweight to maturities on the intermediate portion of the yield curve added as those bonds outperformed.

Investing is subject to risk, including the possible loss of principal. Past performance is no indication of future results.

AVERAGE ANNUAL TOTAL RETURN^{1,2}

	One Year Return	Average Annual 3-Year Return	Average Annual 5-Year Return	Average Annual 10-Year Return	Average Annualized Inception to Date
New York Municipal Bond Fund, Class F	1.29%	2.28%	2.50%	2.40%	3.67%
New York Municipal Bond Fund, Class Y	1.44%	2.41%	2.62%	2.46%	3.70%
Bloomberg Barclays MF New York Intermediate Municipal Index ³	2.02%	2.94%	3.09%	3.19%	4.42%

Comparison of Change in the Value of a \$100,000 Investment in the New York Municipal Bond Fund, Class F and Class Y, versus the Bloomberg Barclays MF New York Intermediate Municipal Index

- For the year ended August 31, 2020. Past performance is no indication of future performance. Class F shares (formerly Class A shares) were offered beginning August 18, 1998. The Fund's Class Y Shares commenced operations on October 30, 2015. For periods prior to October 30, 2015, the performance of the Fund's Class F Shares has been used. Returns for Class Y Shares would have been substantially similar to those of Class F Shares and would have differed only to the extent that Class Y Shares have lower total annual fund operating expenses than Class F Shares.
- Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.
- The Bloomberg Barclays MF New York Intermediate Municipal Index is a subset of the Bloomberg Barclays Municipal Bond Index, an unmanaged, broad-based statistical composite of municipal bonds, and is comprised primarily of bond obligations of the state and local governments of New York and their agencies, with maturities between 5 and 10 years.

August 31, 2020 (Unaudited)

Pennsylvania Municipal Bond Fund

I. Objective

The STET Pennsylvania Municipal Bond Fund (the "Fund") seeks to provide current income exempt from federal and Pennsylvania state income taxes consistent with the preservation of capital.

II. Investment Approach

The Fund uses a sub-advisor to manage the Fund's portfolio under the general supervision of SEI Investments Management Corporation ("SIMC"). The Fund utilized the following sub-advisor as of August 31, 2020: Mellon Investments Corporation ("Mellon").

III. Returns

For the full year ended August 31, 2020, the Pennsylvania Municipal Bond Fund, Class F, returned 3.18%. The Fund's benchmark—the Bloomberg Barclays MF Pennsylvania Intermediate Municipal Index, which tracks the performance of Pennsylvania investment-grade municipal bonds—returned 3.85%.

IV. Performance Discussion

The outbreak and rapid expansion of COVID-19 in the second half of the fiscal year interjected historical market volatility into the municipal bond market during the reporting period. Prior to late February, muni bonds experienced nearly a year of inflows, narrowing credit spreads, and positive performance. As noted in the shareholder letter, AAA municipal yields established record low yields in early March before concerns about the lasting economic impact of the virus increased dramatically and both state and local governments induced widespread lockdowns. Municipal yields rose approximately 200 basis points across the curve as market liquidity evaporated; investor uncertainty led to record fund redemptions, which further exacerbated the liquidity challenges. The Federal Reserve ("Fed") moved swiftly to support financial markets by reducing the federal-funds rate to zero, began unlimited purchases of U.S. Treasury bonds, and launched several credit facilities to purchase corporate and municipal bonds. Over the remainder of the fiscal year, AAA municipal yields declined and returned to record low yields by the end of August. Short-term yields declined in greater magnitude than longer-term yields, in tandem with the Fed lowering the federal-funds rate. Relative to U.S. Treasuries, municipal bonds (as measured by the Bloomberg Barclays US Municipal Bond Index) underperformed, especially on the short end of the curve where the flight-to-safety demand for Treasury bonds was strongest.

While the municipal market recovered a large percentage of its losses, the recovery was uneven; higher-quality assets and essential service sectors rebounded quicker as investors remained uncertain about the recovery and loss of income and sales taxes due to shelter-in-place orders and social-distancing policies. BBB rated and below-investment-grade municipal bonds lagged AAA rated securities for the year. From a sector perspective, general obligation ("GO") bonds produced the highest sector return, while revenue and prefunded bonds had the lowest sector return. Within the revenue sector, transportation bonds underperformed as utilization declined; travel restrictions resulted in a precipitous decline in airplane use, and a large segment of the population worked from home.

The initial Coronavirus Aid, Relief, and Economic Security Act—a \$2.2 trillion economic stimulus bill in response to the economic impact of COVID-19—was passed in March and provided support to municipalities within the state, which included airports and transit systems. Combined with large cash balances, the stimulus bill enabled many Pennsylvania issuers to better navigate the crisis. While the COVID-19 pandemic led to a dramatic decrease in sales-tax revenues late during the fiscal year, Pennsylvania benefited from maintaining a rainy-day fund, which enabled the state to initially absorb the revenue decline.

Consistent with the relative performance outlined in the shareholder letter, an overweight to BBB rated over higher-rated securities challenged Fund performance during the fiscal year. An underweight to Pennsylvania GO bonds, which outperformed, also detracted during the reporting period. Selection within revenue bonds held back returns, especially within the industrial development and transportation sub-sectors. The Fund's slightly shorter duration struggled, although an overweight to bonds with maturities on the intermediate portion of the yield curve added as those bonds outperformed.

Investing is subject to risk, including the possible loss of principal. Past performance is no indication of future results.

AVERAGE ANNUAL TOTAL RETURN^{1,2}

	One Year Return	Average Annual 3-Year Return	Average Annual 5-Year Return	Average Annual 10-Year Return	Annualized Inception to Date
Pennsylvania Municipal Bond Fund, Class F	3.18%	3.31%	3.12%	2.84%	3.72%
Pennsylvania Municipal Bond Fund, Class Y	3.34%	3.47%	3.26%	2.92%	3.76%
Bloomberg Barclays MF Pennsylvania Intermediate Municipal Index ³	3.85%	4.31%	4.04%	3.84%	4.66%

Comparison of Change in the Value of a \$100,000 Investment in the Pennsylvania Municipal Bond Fund, Class F and Class Y, versus the Bloomberg Barclays MF Pennsylvania Intermediate Municipal Index

- For the year ended August 31, 2020. Past performance is no indication of future performance. Class F shares (formerly Class A shares) were offered beginning August 26, 1998. The Fund's Class Y Shares commenced operations on October 30, 2015. For periods prior to October 30, 2015, the performance of the Fund's Class F Shares has been used. Returns for Class Y Shares would have been substantially similar to those of Class F Shares and would have differed only to the extent that Class Y Shares have lower total annual fund operating expenses than Class F Shares.
- Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.
- The Bloomberg Barclays MF Pennsylvania Intermediate Municipal Index is a subset of the Bloomberg Barclays Municipal Bond Index, an unmanaged, broad-based statistical composite of municipal bonds, and is comprised primarily of bond obligations of the state and local governments of Pennsylvania and their agencies, with maturities between 5 and 10 years.

August 31, 2020 (Unaudited)

Tax-Advantaged Income Fund

I. Objective

The STET Tax-Advantaged Income Fund (the "Fund") seeks to provide the highest level of income possible in a tax-efficient manner.

II. Investment Approach

The Fund uses a multi-manager approach, relying on a number of sub-advisors with different investment approaches to manage portions of the Fund under the general supervision of SEI Investments Management Corp. ("SIMC"). The Fund utilized the following sub-advisors as of August 31, 2020: Pacific Investment Management Company LLC ("PIMCO"), Spectrum Asset Management, Inc. ("Spectrum") and Wells Capital Management, Inc. ("Wells").

III. Returns

For the full year ended August 31, 2020, the Tax-Advantaged Income Fund, Class F, returned 3.00%. The Fund's primary benchmark—the Bloomberg Barclays High Yield Municipal Bond Index, which tracks the performance of non-investment-grade municipal bonds—returned 0.96%.

The Fund is designed to have exposure to a range of asset classes, not all of which are reflected in the primary benchmark of the Fund. Therefore, the Fund also utilizes a blended benchmark that consists of the Bloomberg Barclays High Yield Municipal Bond Index (60%) and the Bloomberg Barclays Municipal Bond Index (40%). The Fund's 60/40 blended benchmark is designed to provide a useful comparison for the Fund's overall performance and reflects the Fund's investment strategy more accurately than the broad-based index.

IV. Performance Discussion

The outbreak and rapid expansion of COVID-19 in the second half of the fiscal year interjected historical market volatility into the municipal bond market during the reporting period. Prior to late February, muni bonds experienced nearly a year of inflows, narrowing credit spreads, and positive performance. As noted in the shareholder letter, AAA municipal yields established record low yields in early March before concerns about the lasting economic impact of the virus increased dramatically and both state and local governments induced widespread lockdowns. Municipal yields rose approximately 200 basis points across the curve as market liquidity evaporated; investor uncertainty led to record fund redemptions, which further exacerbated the liquidity challenges. The Federal Reserve ("Fed") moved

swiftly to support financial markets by reducing the federal-funds rate to zero, began unlimited purchases of U.S. Treasury bonds, and launched several credit facilities to purchase corporate and municipal bonds. Over the remainder of the fiscal year, AAA municipal yields declined and returned to record low yields by the end of August. Short-term yields declined in greater magnitude than longer-term yields, in tandem with the Fed lowering the federal-funds rate. Relative to U.S. Treasuries, municipal bonds (as measured by the Bloomberg Barclays US Municipal Bond Index) underperformed, especially on the short end of the curve where the flight-to-safety demand for Treasury bonds was strongest.

While the municipal market recovered a large percentage of its losses, the recovery was uneven; higher-quality assets and essential service sectors rebounded quicker as investors remained uncertain about the recovery and loss of income and sales taxes due to shelter-in-place orders and social-distancing policies. BBB rated and below-investment-grade municipal bonds lagged AAA rated securities for the year. From a sector perspective, general obligation ("GO") bonds produced the highest sector return, while revenue and prefunded bonds had the lowest sector return. Within the revenue sector, transportation bonds underperformed as utilization declined; travel restrictions resulted in a precipitous decline in airplane use, and a large segment of the population worked from home.

The initial Coronavirus Aid, Relief, and Economic Security Act—a \$2.2 trillion economic stimulus bill in response to the economic impact of COVID-19—was passed in March and provided support to municipalities, which included airports and transit systems. Combined with large cash balances, the stimulus bill enabled many issuers to better navigate the crisis.

The Fund's exposure to preferred securities, which outperformed municipal bonds, enhanced performance over the fiscal year. Consistent with the relative performance outlined in the shareholder letter, higher-quality investment-grade municipal bonds outperformed municipal high-yield bonds, and the Fund's overweight to BBB rated securities benefited.

Both Spectrum and PIMCO outperformed, while Wells lagged during the fiscal year. Spectrum's allocation to preferred securities was beneficial. Non-investment-grade municipal bonds underperformed investment-grade municipal bonds, and underweights to non-investment-grade bonds by PIMCO and Wells were additive. Revenue bonds underperformed GO bonds

during the fiscal year; both PIMCO and Wells were overweight revenue bonds and underweight GO bonds, which detracted from returns. An underweight to prefunded bonds added to performance for both PIMCO and Wells.

During the fiscal year, the Fund purchased a small position in U.S. Treasury futures contracts and utilized interest-rate swap contracts to manage portfolio duration and interest-rate risk. This positioning did not have a material impact on Fund performance.

Investing is subject to risk, including the possible loss of principal. Past performance is no indication of future results.

AVERAGE ANNUAL TOTAL RETURN^{1,2}

	One Year Return	Average Annual 3-Year Return	Average Annual 5-Year Return	Average Annual 10-Year Return	Average Annualized Inception to Date
Tax-Advantaged Income Fund, Class F	3.00%	4.54%	5.38%	5.37%	5.02%
Tax-Advantaged Income Fund, Class Y	3.25%	4.80%	5.64%	5.49%	5.11%
60/40 Hybrid of the following Indices:	1.97%	5.02%	5.46%	5.22%	4.92%
Bloomberg Barclays High Yield Municipal Bond Index ³	0.96%	5.60%	6.42%	6.03%	5.07%
Bloomberg Barclays Municipal Bond Index ⁴	3.24%	4.09%	3.99%	3.98%	4.57%

Comparison of Change in the Value of a \$100,000 Investment in the Tax-Advantaged Income Fund, Class F and Class Y, versus a 60/40 Blend of the following indices: the Bloomberg Barclays High Yield Municipal Bond Index, and the Bloomberg Barclays Municipal Bond Index

- 1 For the year ended August 31, 2020. Past performance is no indication of future performance. Class F shares (formerly Class A shares) were offered beginning September 4, 2007. The Fund's Class Y Shares commenced operations on May 1, 2015. For periods prior to May 1, 2015, the performance of the Fund's Class F Shares has been used. Returns for Class Y Shares would have been substantially similar to those of Class F Shares and would have differed only to the extent that Class Y Shares have lower total annual fund operating expenses than Class F Shares.
- 2 Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.
- 3 The Bloomberg Barclays High Yield Municipal Bond Index covers the universe of fixed rate, noninvestment grade debt. Pay-in-kind (PIK) bonds, Eurobonds, and debt issues from countries designated as emerging markets (e.g., Argentina, Brazil, Venezuela, etc.) are excluded, but Canadian and global bonds (SEC registered) of issuers in non-EMG countries are included. Original issue zeroes, step-up coupon structures, and 144-As are also included. The Index includes both corporate and non-corporate sectors. The corporate sectors are Industrial, Utility, and Finance, which include both U.S. and non-U.S. corporations.
- 4 The Bloomberg Barclays Municipal Bond Index is a rules based, market-value-weighted index engineered for the long-term tax-exempt bond market. To be included in the Index, bonds must have a minimum credit rating of Baa. They must have an outstanding par value of at least \$5 million and be issued as part of a transaction of at least \$50 million. The bonds must have a dated-date after December 31, 1990 and must be at least one year from their maturity date.

		<u>32,019</u>			
Total Municipal Bonds (Cost \$1,878,844) (\$ Thousands)		<u>2,006,399</u>			

Percentages are based on Net Assets of \$2,027,148 (\$ Thousands).

** The rate reported is the 7-day effective yield as of August 31, 2020.

+ Investment in Affiliated Security (see Note 4).

- (A) Variable or floating rate security, the interest rate of which adjusts periodically based on prevailing interest rates.
- (B) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration normally to qualified institutions. On August 31, 2020, the value of these securities amounted to \$36,963 (\$ Thousands), representing 1.8% of the Net Assets of the Fund.
- (C) Pre-Refunded Securities — The maturity date shown is the pre-refunded date.
- (D) Zero coupon security. The rate shown on the Schedule of Investments is the security's effective yield at the time of purchase.
- (E) Security is escrowed to maturity.
- (F) Securities are held in connection with a letter of credit issued by a major bank.
- (G) Step Bonds — Represents the current rate, the step rate, the step date and the final maturity date.

AGM— Assured Guaranty Municipal

AMBAC — American Municipal Bond Assurance Corporation

AMT — Alternative Minimum Tax

BAN— Bond Anticipation Note

BAM — Build America Mutual

CI — Class

COP— Certificate of Participation

FHLMC — Federal Home Loan Mortgage Corporation

MUNICIPAL BONDS (continued)		
Multi-State — 0.1%		
BB&T Municipal Trust, RB 0.890%, 11/30/2021 (A)(B)(C)	\$ 941	\$ 941
Total Municipal Bonds (Cost \$1,266,780) (\$ Thousands)		<u>1,280,221</u>
Total Investments in Securities — 99.7% (Cost \$1,266,780) (\$ Thousands)		<u>\$ 1,280,221</u>

Percentages are based on Net Assets of \$1,283,985 (\$ Thousands).

- (A) Variable or floating rate security, the interest rate of which adjusts periodically based on prevailing interest rates.
- (B) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration normally to qualified institutions. On August 31, 2020, the value of these securities amounted to \$59,388 (\$ Thousands), representing 4.6% of the Net Assets of the Fund.
- (C) Securities are held in connection with a letter of credit issued by a major bank.
- (D) Zero coupon security. The rate shown on the Schedule of Investments is the security's effective yield at the time of purchase.
- (E) Security is escrowed to maturity.
- (F) Pre-Refunded Securities — The maturity date shown is the pre-refunded date.

Percentages are based on Net Assets of \$331,110 (\$ Thousands).

** Rate shown is the 7-day effective yield as of August 31, 2020.

+ Investment in Affiliated Security (see Note 4).

(A) Variable or floating rate security, the interest rate of which adjusts periodically based on prevailing interest rates.

(B) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration normally to qualified institutions. On August 31, 2020, the value of these securities amounted to \$2,937 (\$ Thousands), representing 0.9% of the Net Assets of the Fund.

(C) Pre-Refunded Securities — The maturity date shown is the pre-refunded date.

ABAG — Association of Bay Area Governments

AGM— Assured Guaranty Municipal

AMT — Alternative Minimum Tax

BAM — Build America Mutual

CI — Class

COP— Certificate of Participation

FHLMC — Federal Home Loan Mortgage Corporation

GO — General Obligation

RB — Revenue Bond

SAB— Special Assessment Bond

Ser— Series

TA — Tax Allocation

The following is a list of the level of inputs used as of August 31, 2020 in valuing the Fund's investments at value (\$ Thousands):

Investments in Securities	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Total (\$)
Municipal Bonds	—	326,023	—	326,023
Cash Equivalent	1,952	—	—	1,952
Total Investments in Securities	1,952	326,023	—	327,975

As of August 31, 2020, there were no transfers in or out of Level 3.

For more information on valuation inputs, see Note 2 — Significant Accounting Policies in Notes to Financial Statements.

The following is a summary of the transactions with affiliates for the year ended August 31, 2020 (\$ Thousands):

Security Description	Value 8/31/19	Purchases at Cost	Proceeds from Sales	Realized Gain/ (Loss)	Change in Unrealized Appreciation/ (Depreciation)	Value 8/31/20	Shares	Income	Capital Gains
SEI Daily Income Trust, Government Fund, CI F	\$ 3,611	\$ 66,062	\$ (67,721)	\$ —	\$ —	\$ 1,952	1,952,066	\$ 11	\$ —

Amounts designated as “—” are \$0.

The accompanying notes are an integral part of the financial statements.

SCHEDULE OF INVESTMENTS

August 31, 2020

Pennsylvania Municipal Bond Fund (Concluded)

Percentages are based on Net Assets of \$172,948 (\$ Thousands).

* Investment in Affiliated Security (see Note 4).

** The rate reported is the 7-day effective yield as of August 31, 2020.

(A) Pre-Refunded Securities — The maturity date shown is the pre-refunded date.

(B) Variable or floating rate security, the interest rate of which adjusts periodically based on prevailing interest rates.

AGM— Assured Guaranty Municipal

AMT — Alternative Minimum Tax

BAM — Build America Mutual

CI — Class

COP— Certificate of Participation

GO — General Obligation

NATL— National Public Finance Guarantee Corporation

RB — Revenue Bond

Ser — Series

The following is a list of the level of inputs as of August 31, 2020, in valuing the Fund's investments carried at value (\$ Thousands):

	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Total (\$)
Investments in Securities				
Municipal Bonds	—	170,888	—	170,888
Cash Equivalent	264	—	—	264
Total Investments in Securities	<u>264</u>	<u>170,888</u>	<u>—</u>	<u>171,152</u>

As of August 31, 2020, there were no transfers in or out of Level 3.

For more information on valuation inputs, see Note 2 — Significant Accounting Policies in Notes to Financial Statements.

The following is a summary of the transactions with affiliates for the year ended August 31, 2020 (\$ Thousands):

Security Description	Value 8/31/19	Purchases at Cost	Proceeds from Sales	Realized Gain/ (Loss)	Change in Unrealized Appreciation/ (Depreciation)	Value 8/31/20	Shares	Income	Capital Gains
SEI Daily Income Trust, Government Fund, CI F	\$ 1,469	\$ 27,529	\$ (28,734)	\$ -	\$ -	\$ 264	264,046	\$ 11	\$ -

Amounts designated as “—” are \$0.

The accompanying notes are an integral part of the financial statements.

* Per share calculations were performed using average shares.

† Total return and portfolio turnover rate are for the period indicated and have not been annualized. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

‡ The expense ratio includes Trustee fees that are not subject to any voluntary or reimbursement agreement. Had the fees been excluded, the expense ratios would have been equal to, or less than, the expense cap ratio. See Note 4.

^(a) Amount represents less than \$0.01 per share.

^(a) Class Y commenced operations on October 30, 2015. All ratios for the period have been annualized.

FINANCIAL HIGHLIGHTS

For the years or period ended August 31,
For a share outstanding throughout the years or period

(1) The expense ratio includes proxy expenses outside the cap.

Amounts designated as “—” are \$0 or have been rounded to \$0.

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS

August 31, 2020

1. ORGANIZATION

SEI Tax Exempt Trust (the “Trust”) was organized as a Massachusetts business trust under a Declaration of Trust dated March 15, 1982.

The Trust is registered under the Investment Company Act of 1940, as amended, as an open-end investment management company with eight operational funds: the Intermediate-Term Municipal, Short Duration Municipal, California Municipal Bond, Massachusetts Municipal Bond, New Jersey Municipal Bond, New York Municipal Bond, Pennsylvania Municipal Bond, and Tax-Advantaged Income (each a “Fund”, collectively the “Funds”). The California Municipal Bond, Massachusetts Municipal Bond, New Jersey Municipal Bond and New York Municipal Bond Funds are non-diversified. The Funds are registered to offer up to two classes of shares: Class F and Class Y. On May 1, 2015, Class Y shares commenced operations in the Intermediate-Term Municipal, Short Duration Municipal and Tax-Advantaged Income Funds. On October 30, 2015, Class Y shares commenced operations in the California Municipal Bond, Massachusetts Municipal Bond, New Jersey Municipal Bond, New York Municipal Bond and Pennsylvania Municipal Bond Funds.

The Trust’s prospectuses provide a description of each Fund’s investment objective, policies and strategies. The assets of each Fund are segregated, and a shareholder’s interest is limited to the Fund in which shares are held.

2. SIGNIFICANT ACCOUNTING POLICIES

The following are significant accounting policies, which are consistently followed in the preparation of its financial statements by the Funds. The Funds are investment companies that apply the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board (“FASB”).

Use of Estimates — The preparation of financial statements, in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”), requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Security Valuation — Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (other than securities traded on National Association of Securities Dealers Automated Quotations (“NASDAQ”) or as otherwise noted below) at the last quoted sale price on

an exchange or market (foreign or domestic) on which the securities are traded, or, if there is no such reported sale, at the most recent quoted bid price. The Funds value securities traded on NASDAQ at the NASDAQ Official Closing Price. If available, debt securities, such as those held by the Funds, are priced based upon valuations provided by independent, third-party pricing agents. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities at an evaluated bid price by employing methodologies that utilize actual market transactions, broker-supplied valuations or other methodologies designed to identify the market value for such securities. If a security’s price cannot be obtained, as noted above, the Funds will value the securities using a bid price from at least one independent broker. If such prices are not readily available or cannot be valued using the methodologies described above, the Funds will value the security using the Funds’ Fair Value Pricing Policies and Procedures (“Fair Value Procedures”), as described below.

On the first day a new debt security purchase is recorded, if a price is not available from a third-party pricing agent or an independent broker, the security may be valued at its purchase price. Each day thereafter, the debt security will be valued according to the Funds’ Fair Value Procedures until a price from an independent source can be secured. Securities held by a Fund with remaining maturities of 60 days or less may be valued by the amortized cost method, which involves valuing a security at its cost on the date of purchase and thereafter (absent unusual circumstances) assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuations in general market rates of interest on the value of the instrument. While this method provides certainty in valuation, it may result in periods during which value, as determined by this method, is higher or lower than the price a Fund would receive if it sold the instrument. Further, the value of securities in the Fund can be expected to vary inversely with changes in prevailing interest rates. Should existing credit, liquidity or interest rate conditions in the relevant markets and issuer specific circumstances suggest that amortized cost does not approximate fair value, then the amortized cost method may not be used.

Futures and swaps cleared through a central clearing house (“centrally cleared swaps”) are valued at the settlement price established each day by the board of exchange on which they are traded. The daily settlement prices for financial futures and centrally cleared swaps are provided by an independent source. On days when there is excessive volume, market volatility or the future or centrally cleared swap does not end trading by the

time a Fund calculates its NAV, the settlement price may not be available at the time at which the Fund calculates its NAV. On such days, the best available price (which is typically the last sales price) may be used to value a Fund's futures or centrally cleared swaps position.

Prices for most securities held by a Fund are provided daily by third-party independent pricing agents. SEI Investments Management Corporation ("SIMC") or a Sub-Adviser ("Sub-Adviser"), as applicable, reasonably believes that prices provided by independent pricing agents are reliable. However, there can be no assurance that such pricing service's prices will be reliable. SIMC or a Sub-Adviser, as applicable, will continuously monitor the reliability of prices obtained from any pricing service and shall promptly notify the Funds' administrator if it believes that a particular pricing service is no longer a reliable source of prices. The Funds' administrator, in turn, will notify the Fair Value Pricing Committee (the "Committee") if it receives such notification from SIMC or a Sub-Adviser, as applicable, or if the Funds' administrator reasonably believes that a particular pricing service is no longer a reliable source for prices.

The Funds' Fair Value Procedures provide that any change in a primary pricing agent or a pricing methodology requires prior approval by the Board of Trustees (the "Board") or its designated sub-committee. However, when the change would not materially affect valuation of a Fund's net assets or involve a material departure in pricing methodology from that of the Fund's existing pricing agent or pricing methodology, approval may be obtained at the next regularly scheduled meeting of the Board.

Securities for which market prices are not readily available, for which market prices are determined to be unreliable, or which cannot be valued using the methodologies described above are valued in accordance with the Fair Value Procedures established by the Board. The Funds' Fair Value Procedures are implemented through the Committee designated by the Board. The Committee is currently composed of two members of the Board, as well as representatives from SIMC and its affiliates. Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include: (i) the security's trading has been halted or suspended, (ii) the security has been delisted from a national exchange, (iii) the security's primary trading market is temporarily closed at a time when under normal conditions it would be open, or (iv) the security's primary pricing source is not able or willing to provide a price. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration relevant information reasonably available

to the Committee. Examples of factors the Committee may consider include: (i) the facts giving rise to the need to fair value, (ii) the last trade price, (iii) the performance of the market or the issuer's industry, (iv) the liquidity of the security, (v) the size of the holding in a Fund, or (vi) any other appropriate information.

The determination of a security's fair value price often involves the consideration of a number of subjective factors, and is therefore subject to the unavoidable risk that the value assigned to a security may be higher or lower than the security's value would be if a reliable market quotation for the security was readily available.

In accordance with U.S. GAAP, fair value is defined as the price that a Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. A three tier hierarchy has been established to maximize the use of observable and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing an asset. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances.

The three-tier hierarchy of inputs is summarized in the three broad Levels listed below:

Level 1 — quoted prices in active markets for identical investments

Level 2 — other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risks, etc.)

Level 3 — significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

Debt securities are valued in accordance with the evaluated bid price supplied by the pricing service and generally categorized as Level 2 in the hierarchy. Other securities that are categorized as Level 2 in

NOTES TO FINANCIAL STATEMENTS (Continued)

August 31, 2020

the hierarchy include, but are not limited to, preferred stocks, bank loans, warrants, swaps and forward contracts.

When independent prices are unavailable or unreliable, debt securities and swaps may be valued utilizing pricing matrices which consider similar factors that would be used by independent pricing services. These are generally categorized as Level 2 in the hierarchy but may be Level 3 depending on the circumstances.

The valuation techniques used by the Funds to measure fair value during the year ended August 31, 2020 maximized the use of observable inputs and minimized the use of unobservable inputs.

For the year ended August 31, 2020, there have been no significant changes to the Trust's fair valuation methodologies.

For details of the investment classification, reference the Schedules of Investments.

Illiquid Securities — A security is considered illiquid if it cannot be sold or disposed of in the ordinary course of business within seven days or less for its approximate carrying value on the books of the Fund. Valuations of illiquid securities may differ significantly from the values that would have been used had an active market value for these securities existed. At August 31, 2020, the Funds did not own any illiquid securities.

Classes — Class-specific expenses are borne by that class of shares. Income, expenses, and realized and unrealized gains/losses and non-class specific expenses are allocated to the respective class on the basis of relative daily net assets.

Expenses — Expenses that are directly related to one of the Funds are charged directly to that Fund. Other operating expenses of the Funds are prorated to the Funds on the basis of relative net assets.

Security Transactions and Investment Income — Security transactions are recorded on the trade date. Cost used in determining net realized capital gains and losses on the sale of securities is determined on the basis of specific identification. Dividend income and expense is recognized on the ex-dividend date, and interest income or expense is recognized using the accrual basis of accounting.

Cash and Cash Equivalents — Idle cash and currency balances may be swept into various overnight sweep accounts and are classified as cash equivalents on the Statement of Assets and Liabilities. These amounts, at times, may exceed United States federally insured limits. Amounts swept are available on the next business day.

Futures Contracts — To the extent consistent with its investment objective and strategies, a Fund may use futures contracts for tactical hedging purposes as well as to enhance the Fund's returns. Initial margin deposits of cash or securities are made upon entering into futures contracts. The contracts are marked-to-market daily and the resulting changes in value are accounted for as unrealized gains and losses. Variation margin payments are paid or received, depending upon whether unrealized gains or losses are incurred. When the contract is closed, the Funds record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the amount invested in the contract.

Risks of entering into futures contracts include the possibility that there will be an imperfect price correlation between the futures and the underlying securities. Second, it is possible that a lack of liquidity for futures contracts could exist in the secondary market, resulting in an inability to close a position prior to its maturity date. Third, the futures contract involves the risk that a Fund could lose more than the original margin deposit required to initiate a futures transaction. Refer to each Fund's Schedule of Investments, for details regarding open futures contracts as of August 31, 2020, if applicable.

Swap Agreements — To the extent consistent with its investment objective and strategies, the Funds may engage in simple or more complex swap transactions involving a wide variety of underlyings for various reasons. For example, a Fund may enter into a swap to gain exposure to investments (such as an index of securities in a market) or currencies without actually purchasing those stocks or currencies; to make an investment without owning or taking physical custody of securities or currencies in circumstances in which direct investment is restricted for legal reasons or is otherwise impracticable; to hedge an existing position; to obtain a particular desired return at a lower cost to a Fund than if it had invested directly in an instrument that yielded the desired return; or for various other reasons. Swaps are privately negotiated over-the-counter derivative products in which two parties agree to exchange payment streams calculated in relation to a rate, index, instrument or certain securities (referred to as the "underlying") and a predetermined amount (referred to as the "notional amount"). The underlying for a swap may be an interest rate (fixed or floating), a currency exchange rate, a commodity price index, a security, group of securities or a securities index, a combination of any of these, or various other rates, assets or indices. Swap agreements generally do not involve the delivery of the underlying or principal, and a party's obligations generally are equal to only the net amount to be paid

or received under the agreement based on the relative values of the positions held by each party to the swap agreement. At August 31, 2020, the Funds did not own any swap agreements.

International Swaps and Derivatives Association, Inc. Master Agreements (“ISDA Master Agreements”) maintain provisions for general obligations, representations, agreements, collateral, and events of default or termination. The occurrence of a specified event of termination may give a counterparty the right to terminate all of its contracts and affect settlement of all outstanding transactions under the applicable ISDA Master Agreement.

To reduce counterparty risk with respect to over-the-counter (“OTC”) transactions, the Funds may enter into master netting arrangements, established within the Fund’s ISDA master agreements, which allow the Funds to make (or to have an entitlement to receive) a single net payment in the event of default (close-out netting) for outstanding payables and receivables with respect to certain OTC positions in swaps for each individual counterparty. In addition, the Funds may require that certain counterparties post cash and/or securities in collateral accounts to cover their net payment obligations for those derivative contracts subject to ISDA master agreements. If the counterparty fails to perform under these contracts and agreements, the cash and/or securities will be made available to the Funds. The right of set-off exists in the event of default or other termination events. In the event of a default, the total market value exposure will be set-off against collateral exchanged to date, which would result in a net receivable/(payable) that would be due from/to the counterparty. Settlements of transactions, in the ordinary course of business, are not typically subject to net settlement.

For financial reporting purposes, the Funds do not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statement of Assets and Liabilities. Bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against the right of offset in bankruptcy, insolvency or other events.

Collateral terms are contract specific for OTC derivatives. For derivatives traded under an ISDA master agreement, the collateral requirements are typically calculated by netting the mark to market amount of each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Funds or the counterparty.

For financial reporting purposes, cash collateral that has been pledged to cover obligations of the Funds, if any, are reported separately on the Statement of Assets and Liabilities as cash pledged as collateral. Non-cash collateral pledged by the Funds, if any, is noted in its Schedule of Investments. Generally, the amount of collateral due from or to a party must exceed a minimum transfer amount threshold before a transfer has to be made. To the extent amounts due to the Funds from its counterparties are not fully collateralized, contractually or otherwise, the Funds bear the risk of loss from counterparty nonperformance.

Discount and Premium Amortization — All amortization is calculated using the effective interest method. Amortization of premiums and discounts is included in interest income.

Dividends and Distributions to Shareholders — Dividends from net investment income are declared daily and paid monthly. Any net realized capital gains on sales of securities after capital loss carryover are distributed at least annually by the Funds.

3. DERIVATIVE CONTRACTS

International Swaps and Derivatives Association, Inc. Master Agreements and Credit Support Annexes (“ISDA Master Agreements”) govern OTC financial derivative transactions entered into by a Fund and select counterparties. ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements. In limited circumstances, the ISDA Master Agreement may contain additional provisions that add additional counterparty protection beyond coverage of existing daily exposure if the counterparty has a decline in credit quality below a predefined level. These amounts, if any, may be segregated with a third party custodian.

The following table discloses the volume of the Tax-Advantaged Income Fund’s futures contracts during the year ended August 31, 2020 (\$ Thousands):

		Tax-Advantaged Income Fund
Futures Contracts:		
Interest Contracts		
Average Notional Balance Short	\$	8,158
Ending Notional Balance Short		—

4. INVESTMENT ADVISORY, ADMINISTRATION AND DISTRIBUTION AGREEMENTS, INVESTMENT SUBADVISORY AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES

Investment Advisory, Administration and Distribution Agreements — SIMC serves as the Investment Adviser (the “Adviser”) to each Fund. In connection with serving as Adviser to the Funds, SIMC is entitled to a fee, which is calculated daily and paid monthly, based on the average daily net assets of each Fund.

SEI Investments Global Funds Services (the “Administrator”) serves as administrator to the Funds. The Administrator provides the Trust with administrative and transfer agent services. For its services, the Administrator is entitled to a fee, which is calculated daily and paid monthly, based on the average daily net assets of each Fund.

SEI Investments Distribution Co. (the “Distributor”), a wholly owned subsidiary of SEI Investments Company (“SEI”) is the Distributor of the shares of the Funds under a Distribution Agreement. The Funds have adopted a shareholder services plan and agreement (the “Service

Plan”) with respect to Class F Shares that allows such shares to pay service providers a fee based on average daily net assets of such Class F Shares, in connection with the ongoing servicing of shareholder accounts owning such shares. The Service Plan provides that shareholder service fees on Class F Shares will be paid to the Distributor, which may then be used by the Distributor to compensate financial intermediaries for providing shareholder services with respect to Class F Shares.

The Adviser, Administrator and/or Distributor have voluntarily agreed to waive a portion of their fees in order to keep total direct operating expenses (exclusive of interest from borrowings, brokerage commissions, taxes, Trustee fees and extraordinary expenses not incurred in the ordinary course of the Funds’ business) at a specified level. The voluntary waivers by the Funds’ Adviser, Administrator and/or Distributor are limited to the Funds’ direct operating expenses and, therefore, do not apply to indirect expense incurred by the Funds, such as acquired fund fees and expenses. The waivers are voluntary and the Funds’ Adviser, Administrator and/or Distributor may discontinue all or part of these waivers at any time.

The following is a summary of annual fees payable to the Adviser and Distributor and the voluntary expense limitations for each fund:

	Advisory Fees	Shareholder Servicing Fees	Voluntary Expense Limitations
Intermediate-Term Municipal Fund			
Class F	0.33%	0.25%	0.63%
Class Y	0.33%	0.00%	0.38%
Short Duration Municipal Fund			
Class F	0.33%	0.25%	0.63%
Class Y	0.33%	0.00%	0.38%
California Municipal Bond Fund			
Class F	0.33%	0.25%	0.60%
Class Y	0.33%	0.00%	0.45%
Massachusetts Municipal Bond Fund			
Class F	0.33%	0.25%	0.63%
Class Y	0.33%	0.00%	0.48%
New Jersey Municipal Bond Fund			
Class F	0.33%	0.25%	0.60%
Class Y	0.33%	0.00%	0.45%
New York Municipal Bond Fund			
Class F	0.33%	0.25%	0.60%
Class Y	0.33%	0.00%	0.45%
Pennsylvania Municipal Bond Fund			
Class F	0.35%	0.25%	0.63%
Class Y	0.35%	0.00%	0.48%
Tax-Advantaged Income Fund			
Class F	0.50%	0.25%	0.86%
Class Y	0.50%	0.00%	0.61%

The following is a summary of annual fees payable to the Administrator:

	First \$1.5 Billion of Assets	Next \$500 Million of Assets	Next \$500 Million of Assets	Next \$500 Million of Assets	Over \$3 Billion of Assets
Intermediate-Term Municipal Fund	0.200%	0.1775%	0.1550%	0.1325%	0.110%
Short Duration Municipal Fund	0.200%	0.1775%	0.1550%	0.1325%	0.110%
California Municipal Bond Fund	0.200%	0.1775%	0.1550%	0.1325%	0.110%
Massachusetts Municipal Bond Fund	0.200%	0.1775%	0.1550%	0.1325%	0.110%
New Jersey Municipal Bond Fund	0.200%	0.1775%	0.1550%	0.1325%	0.110%
New York Municipal Bond Fund	0.200%	0.1775%	0.1550%	0.1325%	0.110%
Pennsylvania Municipal Bond Fund	0.200%	0.1775%	0.1550%	0.1325%	0.110%
Tax-Advantaged Income Fund	0.300%	0.2550%	0.2100%	0.1650%	0.120%

As of August 31, 2020, SIMC has entered into investment sub-advisory agreements with the following parties and pays the sub-advisers out of the fee that it receives from the Funds:

Investment Sub-Adviser

Intermediate-Term Municipal Fund

Delaware Investments Fund Advisers, a series of Macquarie Investment Management Business Trust
Mellon Investments Corporation
Wellington Management Company LLP

Short Duration Municipal Fund

Neuberger Berman Investment Advisers LLC
Wells Capital Management, Inc.
Western Asset Management Company

California Municipal Bond Fund

Mellon Investments Corporation

Massachusetts Municipal Bond Fund

Mellon Investments Corporation

New Jersey Municipal Bond Fund

Mellon Investments Corporation

New York Municipal Bond Fund

Mellon Investments Corporation

Pennsylvania Municipal Bond Fund

Mellon Investments Corporation

Tax-Advantaged Income Fund

Pacific Investment Management Company, LLC
Spectrum Asset Management, Inc.
Wells Capital Management, Inc.

Payment to Affiliates — Certain Officers and Trustees of the Trust are also Officers and/or Directors of the Administrator, the Distributor, and/or SIMC. The Trust pays each unaffiliated Trustee an annual fee for attendance at quarterly, interim, and committee meetings. The Administrator or the Adviser pays compensation of Officers and affiliated Trustees. A portion of the services provided by the Chief Compliance Officer (“CCO”) and his staff, whom are employees of the administrator, are paid for by the Trust as incurred.

Investment in Affiliated Security — The Funds may invest in the SEI Daily Income Trust Government Fund, an affiliated money market fund, to manage excess cash or to serve as margin or collateral for derivative

positions. Refer to each Fund’s Schedule of Investments for details regarding transactions with affiliated securities for the year ended August 31, 2020, if applicable.

Interfund Lending — The SEC has granted an exemption that permits the Trust to participate in an interfund lending program (the “Program”) with existing or future investment companies registered under the 1940 Act that are advised by SIMC (the “SEI Funds”). The Program allows the SEI Funds to lend money to and borrow money from each other for temporary or emergency purposes.

Participation in the Program is voluntary for both borrowing and lending funds.

Interfund loans may be made only when the rate of interest to be charged is more favorable to the lending fund than an investment in overnight repurchase agreements (“Repo Rate”), and more favorable to the borrowing fund than the rate of interest that would be charged by a bank for short-term borrowings (“Bank Loan Rate”). The Bank Loan Rate will be determined using a formula reviewed annually by the Trust’s Board of Trustees. The interest rate imposed on interfund loans is the average of the Repo Rate and the Bank Loan Rate. As of August 31, 2020 and for the year then ended, the Trust has not participated in the Program.

Purchases	—	508,606	508,606
Sales	—	540,911	540,911

6. FEDERAL TAX INFORMATION

It is each Fund's intention to continue to qualify as a regulated investment company, under Sub-chapter M

The tax character of dividends and distributions paid during the last two fiscal years were as follows:

		Tax-Exempt Income (\$ Thousands)	Ordinary Income (\$ Thousands)	Long-Term Capital Gain (\$ Thousands)	Total (\$ Thousands)
Intermediate-Term Municipal Fund	2020	\$ 48,395	\$ 34	\$ 4,386	\$ 52,815
	2019	50,476	71	1,401	51,948
Short Duration Municipal Fund	2020	15,561	25	—	15,586
	2019	17,405	126	—	17,531
California Municipal Bond Fund	2020	5,560	10	1,391	6,961
	2019	6,180	47	790	7,017
Massachusetts Municipal Bond Fund	2020	1,152	4	307	1,463
	2019	1,269	12	129	1,410
New Jersey Municipal Bond Fund	2020	2,222	58	112	2,392
	2019	2,418	33	—	2,451
New York Municipal Bond Fund	2020	3,072	6	545	3,623
	2019	3,505	14	240	3,759
Pennsylvania Municipal Bond Fund	2020	2,963	9	518	3,490
	2019	3,264	18	86	3,368

of the Internal Revenue Code, and to distribute all of its taxable income and net capital gains. Accordingly, no provision for Federal income taxes is required.

Management has analyzed the Funds' tax positions taken on federal income tax returns for all open tax years and has concluded that as of August 31, 2020, no provision for income tax would be required in the Funds' financial statements. The Funds' federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Reclassification of components of net assets — The timing and characterization of certain income and capital gains distributions are determined annually in accordance with Federal tax regulations, which may differ from U.S. GAAP. As a result, the net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such periods. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, they are charged or credited to paid-in-capital, and distributable earnings, as appropriate, in the period that the differences arise. The permanent differences primarily consist market discount adjustment, defaulted bond adjustments, Perpetual Bond adjustment, gains and losses on paydowns of mortgage and asset-backed securities for tax purposes, and distribution reclassification. There are no permanent difference that is credited or charged to Paid-in Capital and Distributable Earnings as of August 31, 2020.

		Tax-Exempt Income (\$ Thousands)	Ordinary Income (\$ Thousands)	Long-Term Capital Gain (\$ Thousands)	Total (\$ Thousands)
Tax-Advantaged Income Fund	2020	\$ 32,661	\$ 22,728	\$ 11,569	\$ 66,958
	2019	37,031	18,010	5,140	60,181

As of August 31, 2020 the components of distributable earnings on a tax basis were as follows:

	Undistributed Tax-Exempt Income (\$ Thousands)	Undistributed Ordinary Income (\$ Thousands)	Undistributed Long-Term Capital Gain (\$ Thousands)	Capital Loss Carryforwards (\$ Thousands)	Post October Losses (\$ Thousands)	Unrealized Appreciation (Depreciation) (\$ Thousands)	Other Temporary Differences (\$ Thousands)	Total Distributable Earnings/ (Accumulated Losses) (\$ Thousands)
Intermediate-Term Municipal Fund	\$ 3,753	\$ —	\$ 1,960	\$ —	\$ —	\$ 127,165	\$ (4,229)	\$ 128,649
Short Duration Municipal Fund	1,052	—	—	(3,949)	—	13,424	(1,045)	9,482
California Municipal Bond Fund	460	27	986	—	—	19,255	(427)	20,301
Massachusetts Municipal Bond Fund	94	—	319	—	—	4,811	(87)	5,137
New Jersey Municipal Bond Fund	183	—	64	—	—	6,271	(178)	6,340
New York Municipal Bond Fund	234	112	487	—	—	8,817	(238)	9,412
Pennsylvania Municipal Bond Fund	246	—	431	—	—	11,881	(238)	12,320
Tax-Advantaged Income Fund	3,007	—	5,408	—	—	67,894	(3,915)	72,394

*Other temporary differences primarily consist of Dividends Payable.

Post-October losses represent losses realized on investment transactions from November 1, 2019 through August 31, 2020, that, in accordance with Federal income tax regulations, the Funds may elect to defer and treat as having arisen in the following fiscal year.

The Funds have capital losses carried forward as follows:

	Short-Term (\$ Thousands)	Long-Term (\$ Thousands)	Total Capital Loss Carryforwards 8/31/2020* (\$ Thousands)
Short Duration Municipal Fund	\$ (513)	\$ (3,436)	\$ (3,949)

*During the year ended August 31, 2020, Short Duration Municipal Fund utilized \$232,327 in capital loss carryforwards to offset capital gains.

At August 31, 2020, the total cost of securities for Federal income tax purposes and the aggregate gross unrealized appreciation and depreciation on total investments (including foreign currency and derivatives, if applicable) held by the Funds is as follows:

	Federal Tax Cost (\$ Thousands)	Aggregate Gross Unrealized Appreciation (\$ Thousands)	Aggregate Gross Unrealized Depreciation (\$ Thousands)	Net Unrealized Appreciation/ Depreciation (\$ Thousands)
Intermediate-Term Municipal Fund	\$ 1,881,009	\$ 131,563	\$ (4,398)	\$ 127,165
Short Duration Municipal Fund	1,266,797	14,318	(894)	13,424
California Municipal Bond Fund	308,720	19,450	(195)	19,255
Massachusetts Municipal Bond Fund	71,891	4,822	(11)	4,811
New Jersey Municipal Bond Fund	107,813	6,348	(77)	6,271
New York Municipal Bond Fund	169,966	9,145	(328)	8,817
Pennsylvania Municipal Bond Fund	159,271	11,913	(32)	11,881
Tax-Advantaged Income Fund	1,201,656	93,857	(25,963)	67,894

7. CONCENTRATIONS/RISK

In the normal course of business, the Trust enters into contracts that provide general indemnifications by the Trust to the counterparty to the contract. The Trust's maximum exposure under these arrangements is dependent on the future claims that may be made against the Trust and, therefore, cannot be

estimated; however, Management believes that, based on experience, the risk of loss from such claims is considered remote.

To the extent consistent with its investment strategy a Fund may have one or more of the following principle risks:

NOTES TO FINANCIAL STATEMENTS (Continued)

August 31, 2020

Municipal Securities Risk — Municipal securities, like other fixed income securities, rise and fall in value in response to economic and market factors, primarily changes in interest rates, and actual or perceived credit quality. Rising interest rates will generally cause municipal securities to decline in value. Longer-term securities usually respond more sharply to interest rate changes than do shorter-term securities. A municipal security will also lose value if, due to rating downgrades or other factors, there are concerns about the issuer's current or future ability to make principal or interest payments. State and local governments rely on taxes and, to some extent, revenues from private projects financed by municipal securities, to pay interest and principal on municipal debt. Poor statewide or local economic results or changing political sentiments may reduce tax revenues and increase the expenses of municipal issuers, making it more difficult for them to meet their obligations. Actual or perceived erosion of the creditworthiness of municipal issuers may reduce the value of the Fund's holdings. As a result, the Fund will be more susceptible to factors that adversely affect issuers of municipal obligations than a mutual fund that does not have as great a concentration in municipal obligations. Also, there may be economic or political changes that impact the ability of issuers of municipal securities to repay principal and to make interest payments on securities owned by the Fund. Any changes in the financial condition of municipal issuers may also adversely affect the value of the Fund's securities.

Market Risk — The prices of the Fund's fixed income securities respond to economic developments, particularly interest rate changes, as well as to perceptions about the creditworthiness of individual issuers, including governments and their agencies. Generally, the Fund's fixed income securities will decrease in value if interest rates rise and vice versa. In a low interest rate environment, risks associated with rising rates are heightened. Declines in dealer market-making capacity as a result of structural or regulatory changes could decrease liquidity and/or increase volatility in the fixed income markets. In the case of foreign securities, price fluctuations will reflect international economic and political events, as well as changes in currency valuations relative to the U.S. dollar. In response to these events, the Fund's value may fluctuate and/or the Fund may experience increased redemptions from shareholders, which may impact the Fund's liquidity or force the Fund to sell securities into a declining or illiquid market.

California Investment Risk — The Fund's performance will be affected by the fiscal and economic health of the State of California, its political subdivisions, municipalities, agencies and authorities and political and

regulatory developments affecting California municipal issuers.

Massachusetts Investment Risk - The Fund's performance will be affected by the fiscal and economic health of the Commonwealth of Massachusetts, its political subdivisions, municipalities, agencies and authorities and political and regulatory developments affecting Massachusetts municipal issuers.

New Jersey Investment Risk — The Fund's performance will be affected by the fiscal and economic health of the State of New Jersey, its political subdivisions, municipalities, agencies and authorities and political and regulatory developments affecting New Jersey municipal issuers.

New York Investment Risk - The Fund's performance will be affected by the fiscal and economic health of the State of New York, its political subdivisions, municipalities, agencies and authorities and political and regulatory developments affecting New York municipal issuers.

Pennsylvania Investment Risk — The Fund's performance will be affected by the fiscal and economic health of the Commonwealth of Pennsylvania, its political subdivisions, municipalities, agencies and authorities and political and regulatory developments affecting Pennsylvania municipal issuers.

Non-Diversification — The California Municipal Bond, Massachusetts Municipal Bond, New Jersey Municipal Bond and New York Municipal Bond Funds are non-diversified, which means that they may invest in the securities of relatively few issuers. As a result, these Funds may be more susceptible to a single adverse economic or political occurrence affecting one or more of these issuers and may experience increased volatility due to its investments in those securities. The Intermediate-Term Municipal, Tax-Advantaged Income, Short Duration Municipal and Pennsylvania Municipal Bond Funds are diversified.

Credit Risk — The Fund could lose money if the issuer or guarantor of a portfolio security or a counterparty to a contract fails to make timely payment or otherwise honor its obligations. If the Fund purchases securities supported by credit enhancements from banks and other financial institutions, changes in the credit quality of these institutions could cause losses to the Fund and affect its share price.

Interest Rate Risk — The risk that a rise in interest rates will cause a fall in the value of fixed income securities, including U.S. Government securities, in which the Fund invests. Although U.S. Government securities are considered to be among the safest investments, they

are not guaranteed against price movements due to changing interest rates. A low interest rate environment may present greater interest rate risk, because there may be a greater likelihood of rates increasing and rates may increase more rapidly.

Commercial Paper Risk — Commercial paper is a short-term obligation with a maturity generally ranging from one to 270 days and is issued by U.S. or foreign companies or other entities in order to finance their current operations. Such investments are unsecured and usually discounted from their value at maturity. The value of commercial paper may be affected by changes in the credit rating or financial condition of the issuing entities and will tend to fall when interest rates rise and rise when interest rates fall. Asset-backed commercial paper may be issued by structured investment vehicles or other conduits that are organized to issue the commercial paper and to purchase trade receivables or other financial assets. The repayment of asset-backed commercial paper depends primarily on the cash collections received from such an issuer's underlying asset portfolio and the issuer's ability to issue new asset-backed commercial paper.

Call Risk — Issuers of callable bonds may call (redeem) securities with higher coupons or interest rates before their maturity dates. The Fund may be forced to reinvest the unanticipated proceeds at lower interest rates, resulting in a decline in the Fund's income. Bonds may be called due to falling interest rates or non-economical circumstances.

Economic Risks of Global Health Events — Global health events and pandemics, such as COVID-19, have the ability to affect—quickly, drastically and substantially the economies of many nations, states, individual companies and the markets in general and can cause disruptions that cannot necessarily be foreseen. The spread of COVID-19 around the world in 2020 resulted in a substantial number of nations implementing social distancing measures, quarantines, and the shutdown of non-essential businesses and governmental services. Further, it has caused significant volatility in U.S. and international markets. The impact of the outbreak may be short term or may last for an extended period of time.

Extension Risk — The risk that rising interest rates may extend the duration of a fixed income security, typically reducing the security's value.

Liquidity Risk — The risk that certain securities may be difficult or impossible to sell at the time and the price that the Fund would like. The Fund may have to lower the price of the security, sell other securities instead or forego an investment opportunity, any of which

could have a negative effect on Fund management or performance.

Duration Risk — Longer-term securities in which the Fund may invest are more volatile than shorter-term securities. A portfolio with a longer average portfolio duration is more sensitive to changes in interest rates than a portfolio with a shorter average portfolio duration.

Prepayment Risk — The risk that, in a declining interest rate environment, fixed income securities with stated interest rates may have the principal paid earlier than expected, requiring the Fund to invest the proceeds at generally lower interest rates.

Below Investment Grade Securities (Junk Bonds) Risk — Fixed income securities rated below investment grade (junk bonds) involve greater risks of default or downgrade and are generally more volatile than investment grade securities because the prospect for repayment of principal and interest of many of these securities is speculative.

Taxation Risk — The Fund may invest a portion of its assets in securities that generate income that is subject to federal, state and local income tax, including the federal alternative minimum tax applicable to individual taxpayers.

Convertible and Preferred Securities Risk — Convertible and preferred securities generally have less potential for gain or loss than common stocks. In addition, convertible and preferred securities generally provide yields higher than the underlying common stocks, but generally lower than comparable non-convertible securities. Because of this higher yield, convertible and preferred securities generally sell at a price above their "conversion value," which is the current market value of the stock to be received upon conversion. The difference between this conversion value and the price of convertible and preferred securities will vary over time depending on changes in the value of the underlying common stocks and interest rates. Convertible and preferred securities are also subject to credit risk and are often lower-quality securities.

Investment Company Risk — When the Fund invests in an investment company, in addition to directly bearing the expenses associated with its own operations, it will bear a pro rata portion of the investment company's expenses. In addition, while the risks of owning shares of an investment company generally reflect the risks of owning the underlying investments of the investment company, the Fund may be subject to additional or different risks than if the Fund had invested directly in the underlying investments. Closed-end investment companies issue a fixed number of shares that trade on a stock exchange or over-the-counter at a premium or

NOTES TO FINANCIAL STATEMENTS (Concluded)

August 31, 2020

a discount to their net asset value. As a result, a closed-end fund's share price fluctuates based on what another investor is willing to pay rather than on the market value of the securities in the fund.

Private Placements Risk — Investment in privately placed securities may be less liquid than in publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices realized from these sales could be less than those originally paid by the Fund or less than what may be considered the fair value of such securities. Furthermore, companies

whose securities are not publicly traded may not be subject to the disclosure and other investor protection requirements that might be applicable if their securities were publicly traded.

The foregoing is not intended to be a complete discussion of the risks associated with investing in a Fund. Please review each Fund's current prospectus for additional disclosures regarding the principal risks associated with investing in a Fund.

9. CONCENTRATION OF SHAREHOLDERS

SEI Private Trust Company (“SPTC”) and SIMC are subsidiaries of SEI Investments Company. As of August 31, 2020, SPTC held of record the following percentage of outstanding shares of each Fund:

Intermediate-Term Municipal Fund	
Class F	94.49%
Class Y	78.31%
Short Duration Municipal Fund	
Class F	96.60%
Class Y	65.34%
California Municipal Bond Fund	
Class F	96.32%
Class Y	99.67%
Massachusetts Municipal Bond Fund	
Class F	97.39%
Class Y	97.92%
New Jersey Municipal Bond Fund	
Class F	96.59%
Class Y	32.65%
New York Municipal Bond Fund	
Class F	96.38%
Class Y	99.59%
Pennsylvania Municipal Bond Fund	
Class F	93.90%
Class Y	47.60%
Tax-Advantaged Income Fund	
Class F	95.38%
Class Y	90.69%

SPTC is not a direct service provider to the SEI Funds. However, SPTC performs a role in the comprehensive investment solution that SEI provides to investors. SPTC holds the shares in the Funds as custodian for shareholders that are clients of independent registered investment advisers, financial planners, bank trust departments and other financial advisers. SPTC

maintains omnibus accounts at the Fund’s transfer agent.

10. NEW ACCOUNTING PRONOUNCEMENT

In August 2018, The FASB issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820). The new guidance includes additions and modifications to disclosures requirements for fair value measurements. For public entities, the amendments are effective for financial statements issued for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years.

11. SUBSEQUENT EVENTS

Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no adjustments were required to the financial statements as of August 31, 2020.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of the Funds and Board of Trustees
SEI Tax-Exempt Trust:

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of the SEI Tax Exempt Trust, comprised of Intermediate-Term Municipal Fund, Short Duration Municipal Fund, California Municipal Bond Fund, Massachusetts Municipal Bond Fund, New Jersey Municipal Bond Fund, New York Municipal Bond Fund, Pennsylvania Municipal Bond Fund, and Tax-Advantaged Income Fund (collectively, "the Funds"), including the schedules of investments, as of August 31, 2020, the related statements of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the related notes (collectively, the financial statements) and the financial highlights for each of the years or periods in the five-year period then ended. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Funds as of August 31, 2020, the results of their operations for the year then ended, the changes in their net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years or periods in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Such procedures also included confirmation of securities owned as of August 31, 2020, by correspondence with the custodian and brokers or by other appropriate auditing procedures when replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audits provide a reasonable basis for our opinion.

The logo for KPMG LLP, featuring the letters 'KPMG' in a stylized, bold font followed by 'LLP' in a smaller, simpler font.

We have served as the auditor of one or more SEI Funds Investment Companies since 2005.

Philadelphia, Pennsylvania
October 30, 2020

TRUSTEES AND OFFICERS OF THE TRUST (Unaudited)

The following chart lists Trustees and Officers as of August 31, 2020.

Set forth below are the names, addresses, ages, position with the Trust, Term of Office and Length of Time Served, the principal occupations for the last five years, number of positions in fund complex overseen by trustee, and other directorships outside the fund complex of each of the persons currently serving as Trustees and Officers of the Trust. The Trust's Statement of Additional Information ("SAI") includes additional information about the Trustees and Officers. The SAI may be obtained without charge by calling 1-800-342-5734.

Name, Address, and Age	Position(s) Held with Trusts	Term of Office and Length of Time Served ¹	Principal Occupation(s) During Past Five Years	Number of Portfolios in Fund Complex Overseen by Trustee ²	Other Directorships Held by Trustee
INTERESTED TRUSTEES					
Robert A. Neshier One Freedom Valley Drive Oaks, PA 19456 74 yrs. old	Chairman of the Board of Trustees*	since 1995	Currently performs various services on behalf of SEI for which Mr. Neshier is compensated.	98	President and Director of SEI Structured Credit Fund, LP. Director of SEI Global Master Fund plc, SEI Global Assets Fund plc, SEI Global Investments Fund plc, SEI Investments—Global Funds Services, Limited, SEI Investments Global, Limited, SEI Investments (Europe) Ltd., SEI Multi-Strategy Funds PLC, SEI Global Nominee Ltd and SEI Investments—Unit Trust Management (UK) Limited. President, Director and Chief Executive Officer of SEI Alpha Strategy Portfolios, LP from 2007 to 2013. Trustee of SEI Liquid Asset Trust from 1989 to 2016. DISCLOSURE OF FUND EXPENSES (Unaudited)

August 31, 2020

All mutual funds have operating expenses. As a shareholder of a mutual fund, your investment is affected by these ongoing costs, which include (among others) costs for portfolio management, administrative services, and shareholder reports like this one. It is important for you to understand the impact of these costs on your investment returns.

Operating expenses such as these are deducted from the mutual fund's gross income and directly reduce its final investment return. These expenses are expressed as a percentage of the mutual fund's average net assets; this percentage is known as the mutual fund's expense ratio.

The following examples use the expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period (March 1, 2020 to August 31, 2020).

The following table illustrates your Fund's costs in two ways:

•Actual Fund Return. This section helps you to estimate the actual expenses after fee waivers that your Fund incurred over the period. The "Expenses Paid During Period" column shows the actual dollar expense cost incurred by a \$1,000 investment in the Fund, and the "Ending Account Value" number is derived from deducting that expense cost from the Fund's gross investment return.

You can use this information, together with the actual amount you invested in your Fund, to estimate the expenses you paid over that period. Simply divide your actual starting account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply that ratio by the number shown for your Fund under "Expenses Paid During Period".

•Hypothetical 5% Return. This section helps you compare your Fund's costs with those of other mutual funds. It assumes that your Fund had an annual 5% return before expenses during the year, but that the expense ratio (Column 3) is unchanged. This example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to make this 5% calculation. You can assess your Fund's comparative cost by comparing the hypothetical result for your Fund in the "Expenses Paid During Period" column with those that appear in the same charts in the shareholder reports for other mutual funds.

NOTE: Because the return is set at 5% for comparison purposes — NOT your Fund's actual return — the account values shown do not apply to your specific investment.

* Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 184/366 (to reflect the one-half year period shown).

REVIEW OF LIQUIDITY RISK MANAGEMENT PROGRAM (Unaudited)

Pursuant to Rule 22e-4 under the 1940 Act, the Trust, on behalf of the Funds, has adopted a liquidity risk management program (the “Program”) to govern the Trust’s approach to managing liquidity risk. The Program is overseen by the SIMC Liquidity Risk Oversight Committee, and the Program’s principal objectives include assessing, managing and periodically reviewing each Fund’s liquidity risk, based on factors specific to the circumstances of the Fund.

At a meeting of the Board held on March 24, 2020, the Trustees received a report from the SIMC Liquidity Risk Oversight Committee addressing the operations of the Program and assessing its adequacy and effectiveness of implementation. The SIMC Liquidity Risk Oversight Committee determined, and reported to the Board, that the Program is reasonably designed to assess and manage each Fund’s liquidity risk and has operated adequately and effectively to manage each Fund’s liquidity risk since the Program was implemented on December 1, 2018. The SIMC Liquidity Risk Oversight Committee reported that during the period covered by the report, there were no liquidity events that impacted the Funds or their ability to timely meet redemptions without dilution to existing shareholders. The SIMC Liquidity Risk Oversight Committee further noted that no material changes have been made to the Program since its implementation.

There can be no assurance that the Program will achieve its objectives in the future. Please refer to the prospectus for more information regarding a Fund’s exposure to liquidity risk and other principal risks to which an investment in the Funds may be subject.

BOARD OF TRUSTEES CONSIDERATIONS IN APPROVING THE ADVISORY AND SUB-ADVISORY AGREEMENT (Unaudited)

SEI Tax Exempt Trust (the “Trust”) and SEI Investments Management Corporation (“SIMC”) have entered into an investment advisory agreement (the “Advisory Agreement”), pursuant to which SIMC provides investment advisory services to the series of the Trust (the “Funds”). Pursuant to separate sub-advisory agreements with SIMC (the “Sub-Advisory Agreements” and, together with the Advisory Agreement, the “Investment Advisory Agreements”), and under the supervision of SIMC and the Trust’s Board of Trustees (the “Board”), the sub-advisers (each, a “Sub-Adviser” and collectively, the “Sub-Advisers”) provide security selection and certain other advisory services with respect to all or a discrete portion of the assets of the Funds. The Sub-Advisers are also responsible for managing their employees who provide services to the Funds. The Sub-Advisers are selected based primarily upon the research and recommendations of SIMC, which evaluates quantitatively and qualitatively the Sub-Advisers’ skills and investment results in managing assets for specific asset classes, investment styles and strategies.

The Investment Company Act of 1940, as amended (the “1940 Act”), requires that the initial approval of a Fund’s Investment Advisory Agreements be specifically approved by the vote of a majority of the outstanding shareholders of the Funds and the vote of a majority of the Trustees who are not parties to the Investment Advisory Agreements or “interested persons” of any party (the “Independent Trustees”) cast in person (or otherwise, as consistent with applicable laws, regulations and related guidance and relief) at a meeting called for such purpose. In addition, the 1940 Act requires that the continuation or renewal of any Investment Advisory Agreement be approved at least annually (after an initial period of up to two years), which also requires the vote of a majority of the Board, including a majority of the Independent Trustees. In the case of the initial approval of a Sub-Advisory Agreement, only the approval of a majority of the Board, including a majority of the Independent Trustees, is required, pursuant to an exemptive order that has been granted to the Trust by the Securities and Exchange Commission. In connection with their consideration of such initial approvals and renewals, the Funds’ Trustees must request and evaluate, and SIMC and the Sub-Advisers are required to furnish, such information as may be reasonably necessary to evaluate the terms of the Investment Advisory Agreements. In addition, the Securities and Exchange Commission takes the position that, as part of their fiduciary duties with respect to a mutual fund’s fees, mutual fund boards are required to evaluate the material factors applicable to a decision to approve an investment advisory agreement.

Consistent with these responsibilities, the Board calls and holds meetings each year to consider whether to approve new and/or renew existing Investment Advisory Agreements between the Trust and SIMC and SIMC and the Sub-Advisers with respect to the Funds of the Trust. In preparation for these meetings, the Board requests and reviews a wide variety of materials provided by SIMC and the Sub-Advisers, including information about SIMC’s and the Sub-Advisers’ affiliates, personnel and operations and the services provided pursuant to the Investment Advisory Agreements. The Board also receives data from third parties. This information is provided in addition to the detailed information about the Funds that the Board reviews during the course of each year, including information that relates to Fund operations and Fund performance. The Trustees also receive a memorandum from counsel regarding the responsibilities of Trustees in connection with their consideration of whether to approve the Trust’s Investment Advisory Agreements. Finally, the Independent Trustees receive advice from independent counsel to the Independent Trustees, meet in executive sessions outside the presence of Fund management and participate in question and answer sessions with representatives of SIMC and the Sub-Advisers.

Specifically, during the course of the Trust’s fiscal year, the Board requested and received written materials from SIMC and the Sub-Advisers regarding: (i) the quality of SIMC’s and the Sub-Advisers’ investment management and other services; (ii) SIMC’s and the Sub-Advisers’ investment management personnel; (iii) SIMC’s and the Sub-Advisers’ operations and financial condition; (iv) SIMC’s and the Sub-Advisers’ brokerage practices (including any soft dollar arrangements) and investment strategies; (v) the level of the advisory fees that SIMC charges the Funds and the level of the sub-advisory fees that SIMC pays the Sub-Advisers, compared with fees each charge to comparable accounts; (vi) the advisory fees charged by SIMC and the Funds’ overall fees and operating expenses compared with peer groups of mutual funds prepared by Broadridge, an independent provider of investment company data; (vii) the level of SIMC’s and the Sub-Advisers’ profitability from their Fund-related operations; (viii) SIMC’s and the Sub-Advisers’ compliance program, including a description of material compliance matters and material compliance violations; (ix) SIMC’s potential economies of scale; (x) SIMC’s and the Sub-Advisers’ policies on and compliance procedures for personal securities transactions; (xi) SIMC’s and the Sub-Advisers’ expertise and resources in domestic and/or international financial markets; and (xii) the Funds’ performance over various periods of time compared with peer groups of mutual funds prepared by Broadridge and the Funds’ benchmark indexes.

BOARD OF TRUSTEES CONSIDERATIONS IN APPROVING THE ADVISORY AND SUB-ADVISORY AGREEMENT (Unaudited) (Concluded)

At the March 23-25, 2020 meeting of the Board, the Trustees, including a majority of the Independent Trustees, approved the renewal of the Advisory Agreement. Also, each Sub-Advisory Agreement was either initially approved or, if the Sub-Advisory Agreement was already in effect (unless operating under an initial two-year term), renewed at meetings of the Board held during the course of the Trust's fiscal year on March 23-25, 2020 and June 22-24, 2020. In each case, the Board's approval (or renewal) was based on its consideration and evaluation of the factors described above, as discussed at the meetings and at prior meetings. The following discusses some, but not all, of the factors that were considered by the Board in connection with its assessment of the Investment Advisory Agreements.

Nature, Extent and Quality of Services. The Board considered the nature, extent and quality of the services provided by SIMC and the Sub-Advisers to the Funds and the resources of SIMC and the Sub-Advisers and their affiliates dedicated to the Funds. In this regard, the Trustees evaluated, among other things, SIMC's and each Sub-Adviser's personnel, experience, track record and compliance program. Following evaluation, the Board concluded that, within the context of its full deliberations, the nature, extent and quality of services provided by SIMC and the Sub-Advisers to the Funds and the resources of SIMC and the Sub-Advisers and their affiliates dedicated to the Funds were sufficient to support the renewal of the Investment Advisory Agreements. In addition to advisory services, the Board considered the nature and quality of certain administrative, transfer agency and other non-investment advisory services provided to the Funds by SIMC and/or its affiliates.

Performance. In determining whether to renew SIMC's Advisory Agreement, the Trustees considered the Funds' performance relative to their peer groups and appropriate indexes/benchmarks. The Trustees reviewed performance information for each Fund, noting that they receive performance reports that permit them to monitor each Fund's performance at board meetings throughout the year. As part of this review, the Trustees considered the composition of each peer group and selection criteria. In assessing Fund performance, the Trustees considered a report compiled by Broadridge, an independent third-party that was engaged to prepare an assessment of the Funds in connection with the renewal of the Advisory Agreement (the "Broadridge Report"). The Broadridge Report included metrics on risk analysis, volatility versus total return, net total return and performance consistency for the Funds and a universe of comparable funds. Based on the materials considered and discussed at the meetings, the Trustees found Fund performance satisfactory, or, where performance was materially below the benchmark and/or peer group, the Trustees were satisfied with the reasons provided to explain such performance. In connection with the approval or renewal of Sub-Advisory Agreements, the Board considered the performance of the Sub-Adviser relative to appropriate indexes/benchmarks. Following evaluation, the Board concluded that, within the context of its full deliberations, the performance of the Funds was sufficient to support renewal of SIMC's Advisory Agreement, and the performance of each Sub-Adviser was sufficient to support approval or renewal of the Sub-Advisory Agreement.

Fees. With respect to the Funds' expenses under the Investment Advisory Agreements, the Trustees considered the rate of compensation called for by the Investment Advisory Agreements and the Funds' net operating expense ratios in comparison to those of the Funds' respective peer groups. In assessing Fund expenses, the Trustees considered the information in the Broadridge Report, which included various metrics related to fund expenses, including, but not limited to, contractual management fees at various asset levels, actual management fees (including transfer agent expenses), and actual total expenses for the Funds and a universe of comparable funds. Based on the materials considered and discussion at the meetings, the Trustees further determined that fees were either shown to be below the peer average in the comparative fee analysis, or that there was a reasonable basis for the fee level. The Trustees also considered the effects of SIMC's and its affiliates' voluntary waivers of management and other fees to prevent total Fund operating expenses from exceeding any applicable cap and concluded that SIMC, through waivers, has maintained the Funds' net operating expenses at competitive levels for its distribution channels. In determining the appropriateness of fees, the Board also took into consideration the impact of fees incurred indirectly by the Funds as a result of investments into underlying funds, including funds from which SIMC or its affiliates earn fees. The Board also took into consideration compensation earned from the Funds by SIMC or its affiliates for non-advisory services, such as administration, transfer agency, shareholder services or brokerage, and considered whether SIMC and its affiliates may have realized other benefits from their relationship with the Funds, such as any research and brokerage services received under soft dollar arrangements. When considering fees paid to Sub-Advisers, the Board took into account the fact that the Sub-Advisers are compensated by SIMC and not by the Funds directly, and that such compensation with respect to any unaffiliated Sub-Adviser reflects an arms-length negotiation between the Sub-Adviser and SIMC. Following evaluation, the Board concluded that, within the context of its full deliberations, the expenses of the Funds are reasonable and supported renewal of the Investment Advisory Agreements. The Board

also considered whether the Sub-Advisers and their affiliates may have realized other benefits from their relationship with the Funds, such as any research and brokerage services received under soft dollar arrangements.

Profitability. With regard to profitability, the Trustees considered compensation flowing to SIMC and the Sub-Advisers and their affiliates, directly or indirectly. The Trustees considered whether the levels of compensation and profitability were reasonable. As with the fee levels, when considering the profitability of the Sub-Advisers, the Board took into account the fact that compensation with respect to any unaffiliated Sub-Adviser reflects an arms-length negotiation between the Sub-Adviser and SIMC. In connection with the approval or renewal of each Sub-Advisory Agreement, the Board also took into consideration the impact that the fees paid to the Sub-Adviser have on SIMC's advisory fee margin and profitability. Based on this evaluation, the Board concluded that, within the context of its full deliberations, the profitability of each of SIMC and the Sub-Advisers is reasonable and supported renewal of the Investment Advisory Agreements.

Economies of Scale. With respect to the Advisory Agreement, the Trustees considered whether any economies of scale were being realized by SIMC and its affiliates and, if so, whether the benefits of such economies of scale were passed along to the Funds' shareholders through a graduated investment advisory fee schedule or other means, including any fee waivers by SIMC and its affiliates. The Trustees recognized that economies of scale are difficult to identify and quantify and are rarely identifiable on a fund-by-fund basis. Based on this evaluation, the Board determined that the fees were reasonable in light of the information that was provided by SIMC with respect to economies of scale.

Based on the Trustees' deliberation and their evaluation of the information described above, the Board, including all of the Independent Trustees, with the assistance of Fund counsel and Independent Trustees' counsel, unanimously approved the approval or renewal, as applicable, of the Investment Advisory Agreements and concluded that the compensation under the Investment Advisory Agreements is fair and reasonable in light of such services and expenses and such other matters as the Trustees considered to be relevant in the exercise of their reasonable judgment. In the course of its deliberations, the Board did not identify any particular factor (or conclusion with respect thereto) or single piece of information that was all-important, controlling or determinative of its decision, but considered all of the factors together, and each Trustee may have attributed different weights to the various factors (and conclusions with respect thereto) and information.

NOTICE TO SHAREHOLDERS (Unaudited)

For shareholders that do not have an August 31, 2020 taxable year end this notice is for information purposes only. For shareholders with an August 31, 2020 taxable year end, please consult your tax adviser as to the pertinence of this notice.

For the fiscal year ended August 31, 2020, the Funds are designating the following with regard to distributions paid during the year:

Fund	(A) Long-Term Capital Gain Distribution	(B) Ordinary Income Distributions (Tax Basis)	(C) Tax Exempt Income Distributions ⁽⁶⁾	Total Distributions	(D) Dividends Received Deduction ⁽¹⁾
Intermediate-Term Municipal Fund ⁽⁶⁾⁽⁷⁾	8.31%	0.07%	91.62%	100.00%	0.00%
Short Duration Municipal Fund ⁽⁶⁾⁽⁷⁾	0.00%	0.15%	99.85%	100.00%	0.00%
California Municipal Bond Fund ⁽⁷⁾	19.69%	0.13%	80.18%	100.00%	0.00%
Massachusetts Municipal Bond Fund ⁽⁶⁾	20.69%	0.30%	79.01%	100.00%	0.00%
New Jersey Municipal Bond Fund ⁽⁷⁾	4.61%	2.41%	92.98%	100.00%	0.00%
New York Municipal Bond Fund ⁽⁷⁾	14.83%	0.17%	85.00%	100.00%	0.00%
Pennsylvania Municipal Bond Fund ⁽⁶⁾⁽⁷⁾	14.71%	0.26%	85.03%	100.00%	0.00%
Tax-Advantaged Income Fund ⁽⁶⁾⁽⁷⁾	17.06%	33.52%	49.42%	100.00%	2.03%

Fund	(E) Qualifying Dividend Income ⁽²⁾	(F) U.S. Government Interest (Tax Basis) ⁽³⁾	(G) Interest Related Dividends ⁽⁴⁾	(H) Short-Term Capital Gains Dividends ⁽⁵⁾
Intermediate-Term Municipal Fund ⁽⁶⁾⁽⁷⁾	0.00%	0.00%	0.00%	0.00%
Short Duration Municipal Fund ⁽⁶⁾⁽⁷⁾	0.00%	0.00%	0.00%	0.00%
California Municipal Bond Fund ⁽⁷⁾	0.00%	0.00%	0.00%	0.00%
Massachusetts Municipal Bond Fund ⁽⁶⁾	0.00%	0.00%	0.00%	0.00%
New Jersey Municipal Bond Fund ⁽⁷⁾	0.00%	0.00%	0.00%	100.00%
New York Municipal Bond Fund ⁽⁷⁾	0.00%	0.00%	0.00%	0.00%
Pennsylvania Municipal Bond Fund ⁽⁶⁾⁽⁷⁾	0.00%	0.00%	0.00%	0.00%
Tax-Advantaged Income Fund ⁽⁶⁾⁽⁷⁾	2.25%	2.42%	24.12%	100.00%

(1) "Dividends Received Deduction" represent dividends which qualify for the corporate dividends received deduction.

(2) "Qualifying Dividend Income" represent qualifying dividends as created by the Jobs and Growth Tax Relief Reconciliation Act of 2003. It is the intention of the Funds to designate the max amount permitted by law.

(3) "U.S. Government Interest" represents the amount of interest that was derived from U.S. Government obligations and distributed during the fiscal year. Generally, interest from direct U.S. Government obligations is exempt from state income tax. However, for shareholders who are residents of California, Connecticut or New York, the statutory threshold requirements were not satisfied to permit exemption of these amounts from state income.

(4) The percentage in this column represents the amount of "Interest Related Dividends" and is reflected as a percentage of ordinary income distribution for calendar year ended 2020. Interest related dividends are exempted from U.S. withholding tax when paid to foreign investors.

(5) The percentage of this column represents the amount of "Short Term Capital Gain Dividends" is reflected as a percentage of short-term capital gain distribution for calendar year ended 2020 that is exempted from U.S. withholding tax when paid to foreign investors.

(6) "Exempt-Interest Dividends" represent the amount of interest that was derived from state exempt obligations and distributed during the fiscal year. This amount is reflected as a percentage of total distributions. Generally, interest from state obligations is exempt from state income tax. However, for shareholders of these funds who are residents of California, Connecticut, New Jersey and New York, the statutory threshold requirements were not satisfied to permit exemption of these amounts from state income tax.

(7) For California income tax purposes, for the fiscal year ended August 31, 2020, the Intermediate-Term Municipal, the Short Duration Municipal, the California Municipal, the Massachusetts Municipal, the New Jersey Municipal, the New York Municipal, the Pennsylvania Municipal and the Tax Advantaged Income Funds designated 7.69%, 2.32%, 100.00%, 0.00%, 0.00%, 0.00%, 0.00% and 9.43% respectively, of their distributions paid from net investment income as exempt-interest dividends under Section 17145 of the California Revenue and Taxation Code.

Items (A), (B) and (C) are based on the percentage of each fund's total distribution.

Items (D) and (E) are based on the percentage of "Ordinary Income Distributions".

Item (F) is based on the percentage of gross income of each Fund.

Item (G) is based on the percentage of net investment income distributions.

Item (H) is based on the percentage of short-term capital gain distributions.

Please consult your tax adviser for proper treatment of this information. This notification should be kept with your permanent tax records.
